## QUAKES ROCK TURKEY, TAKING TOLL OF 300 LIVES

### CHINESE ARMY YIELDS ALONG 50-MILE FRONT

First Thrust of Big New Offensive Carries Japanese Forces Forward

### Shantung Battles Grow in Violence

SHANGHAI (AP)—A driving Japanese offensive Wednesday thrust back the central China army in two major battles along the 50-mile front in southern Shantung province.

The offensive checked optimism Chinese had shown with their victory at Taiherchwang, and it appeared they were making a last stand in the province—more than three-fourths of its 56,000 square miles nominally under Japanese control.

The two battles were along the Lini front at Hanchwang. Japanese said they captured Lini and Chinese admitted loss of Hanchwang.

Chinese had reported a force of 60,000 marching for the attack on Lini, a short time before Japanese announcement of its capture. The Chinese admitted they had retreated from Hanchwang before an overwhelming Japanese attack during the night. Chinese had claimed its capture only on Tuesday.

The Japanese offensive was designed to utilize Lini as the base for a quick drive to rescue a Japanese force, barricaded in nearby Yihien and under repeated assaults by Chinese.

**NO LULL REPORTED**  
There was continuous fighting at Yihien and along the entire front.

The Lini victory was hailed as avenging in part the Japanese defeat at Taiherchwang, but foreign observers believed all Japanese preparations were not yet complete to permit the offensive to swing along in full force.

When the Japanese are ready again to seek control of the Lung-hai, there may then be the biggest battle of the war. New troops and supplies are being brought in from Tsingtao, Shantung seaport, and Chinese likewise are bringing up reinforcements.

### Japan's Biggest Volcano Erupts

TOKIO (AP)—Mount Asama, Japan's largest and most active volcano, erupted Wednesday with the biggest shower of stones and ashes in six years.

Rocks the size of watermelons rained on the slopes and villages nearby, causing a forest fire which raged for eight hours. Police prohibited mountain climbers from going up the slopes.

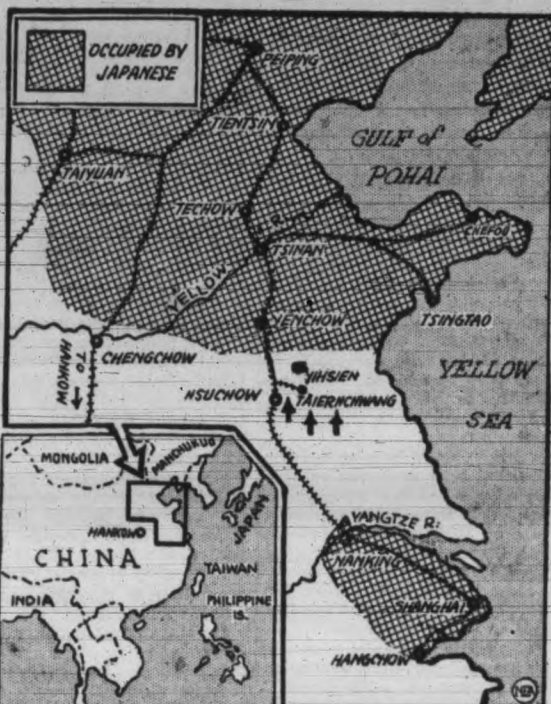

The last eruption was March 25 after a year of inactivity.

## New Northern Province Urged

### THE WEATHER

VICTORIA, 5 a.m. today—Pressure is high over British Columbia and the north coast with a depression approaching Vancouver Island. The weather has been fair throughout this province, warm by day, but with light frosts in interior at night. Light snowfalls have occurred in the prairie provinces.

### Scene of Great China Battle

The shaded portions of the large map above indicate the regions occupied by the Japanese. After their recent capture of Taiherchwang the Chinese continued to advance north. Now the Japanese, launching another great drive to the south, to unite with their forces holding the Shanghai-Nanking district, have turned the Chinese and are fighting to relieve the force that was caught and barricaded itself in the battered town of Yihien, where for some time it has been beating off attacks. The small map above indicates the present war area in relation to the rest of China.

## Cage With Men Falls 800 Feet In Ontario Mine

### Hitler Reviews Army Parade

Fuehrer, Celebrating 49th Birthday, Hears Schmeling Describe Own Victories

BERLIN (AP)—Picked units of the German army paraded before Adolf Hitler today as all Germany celebrated the Fuehrer's 49th birthday.

Unparalleled scenes of national rejoicing took place as the German people, still mindful of Hitler's triumphs in accomplishing Austrian union, acclaimed their leader.

In newly-acquired Austria, cities, towns and villages were profusely beflagged and decorated with "Hitler oak saplings."

In Berlin Max Schmeling, the boxer, was invited to see Hitler and explain to the Fuehrer just how he overcomes his opponents in the ring.

### Peace River People Propose Union With Yukon and N.W.T.

PEACE RIVER, Alta. (CP)—Separation of the Peace River blocks of Alberta and British Columbia from their respective provinces and formation of them, along with the Yukon Territory and portions of the Northwest Territories into a separate province or autonomous area is urged in a brief adopted here last night at a general meeting called by the Peace River Chamber of Commerce. The move is the third of its kind in recent years.

The Chamber of Commerce addressed its brief to the federal cabinet, but intends also to submit it to the Royal Commission on Dominion-Provincial Relations.

Speakers at the gathering, led by C. W. Frederick, Peace River publisher, supported the move. The meeting was attended by farmers and residents of the (Turn to Page 2, Col. 2)

### One Death in Beardmore Accident; Six Injured Men Lifted Out

BEARDMORE, Ont. (CP)—One man was killed and six injured when a cage in the Northern Empire Mine, near here, plunged from the 600-foot level to the 1,400-foot level, early today. Beardmore is 125 miles northeast of Port Arthur.

The man who lost his life was Joe Barr, 25, employed as a miner.

The injured suffering from fractures of the legs and arms and internal injuries, are Tony Krill, Joe Karjiuk, Ken Murphy, Shenley White, Bill Dahl and John Karjiuk.

The injured workers were placed aboard a special train for Port Arthur, to receive hospital treatment. The condition of each is considered serious.

**CAGE CRUSHED**  
It was one of the worst accidents in the history of the Beardmore gold mining district. The men were coming off shift at 3:30 o'clock this morning when a defective clutch of the cage broke loose. The cage plunged 800 feet with the seven men and was crushed as it hit the bottom of the shaft.

Barr died shortly after he had been brought to the surface. Difficulty was experienced in bringing the men out of the mine. The cage was so badly smashed it was impossible to move it.

The top of the cage was taken off and the accident victims removed by ropes.

A complete investigation into the accident is expected. It was something Arthur Kendall, mine manager, said he had never heard of before. It had been believed impossible for a clutch to let go in such a manner.

Condition of Krill and Joe Karjiuk was described as most serious of the injured, who were given medical aid before being placed aboard the special train, due to arrive at Port Arthur this afternoon. (Turn to Page 2, Col. 3)

### Five Fliers Are Killed in France

LYONS, France (AP)—Five Lyons men were burned to death today when a French army plane crashed while participating in a group flight from Bron to Marignan.

## PATROLS OF B.C. COAST ARE DEFENCE PLAN

Hon. Ian Mackenzie Outlines Measures Now Being Worked Out

### Need to Guard Against Raids

VANCOUVER (CP)—Hon. Ian Mackenzie, Minister of National Defence, today described the three-fold aim of Canada's defence program as protection of strategic trade routes, the country's ports and coast line and of the nation's neutrality.

Mr. Mackenzie, addressing a meeting of Vancouver business men, sketched a brief hypothetical picture of war in the eastern Pacific and its possible effect on British Columbia's \$225,000,000 share of Canada's \$2,000,000,000 of foreign trade each year.

"Defence of foreign trade means more than defence of our coast," he said. "For example, a loss of foreign trade would deprive over 2,000,000 prairie residents with only one crop of their livelihood."

"Our lumber industry, our mining industry and all the varied transportation and commercial interests would be crippled."

### BASES FOR RAIDS

"Suppose we had to defend our neutrality. In a war on the Pacific belligerents may seek advance posts for attacking and raiding their respective enemies. The British Columbia coastline—rugged, indented, almost unpopulated—makes desirable terrain for such activities."

"If we do not drive off those who seek to use our bays and inlets for un-neutral purposes, as bases for attack on another friendly power, somebody else will do it for us and we shall lose the sovereignty of our own territory."

Mr. Mackenzie illustrated his idea by assuming a war between the United States and a "trans-Pacific power." He said existence of a first-class naval base in Puget Sound demanded that any enemy be prevented from establishing advance bases within effective flying range.

### ALSO ATLANTIC

"It will be our responsibility as a neutral to prevent advance bases being established in the Queen Charlotte Island region and to destroy any that may be established on Canadian territory," he said. "We have similar (Turn to Page 2, Col. 7)

## BIG GAIN IN LAND SALES

Quarterly Figures For Victoria \$78,873 Ahead of Last Year's Period

Property sales in the city during the first quarter of 1938 stood \$78,873 above the total for the similar period last year, according to figures released today by the city collector's department.

Actual sales at the end of March stood at \$295,920 against \$217,047.

The increase shown during the first two months of the year was sustained during March when sales amounted to \$88,405 against the 1937 monthly total of \$65,527. In addition to sales, transfers accounted for changes in ownership of another \$42,362, and wills for \$16,800, making the aggregate transfers for March \$147,567. A heavy list of wills last year brought the March aggregate in 1937 to \$147,037.

The three months' figures this year showed transfers totaling \$189,104 against \$174,960 in 1937, and changes through wills of \$113,746 against \$100,495 last year. The aggregate, including sales, was \$398,769 for the first quarter of 1938 compared with \$492,502 for the 1937 period.

The increasing sales, illustrated also in the amount of property the city is restoring to tax-paying lists, was taken as an indication of further restoration of confidence in land values in Victoria.

### Princess Twelve Tomorrow

"A peep into the Buckingham Palace schoolroom would reveal Princess Elizabeth sitting, deeply interested..."

## Birthday of Heir Presumptive Means Change In Lessons

### BREAK MADE IN IRRIGATION

LILLOOET, B.C. (CP)—White ranchers along Moon and Dickie Creeks above the Bridge River Indian reservation today said their irrigation ditches had been blocked, apparently so more water would flow through Indian farms in the area.

Indian Agent Alex Strang was summoned from Lytton, B.C., to inquire into the matter. Indians recently succeeded in evicting white miners from diggings located along the Bridge and Fraser Rivers where they pass through reservations.

### NOT IDENTIFIED

ST. CATHARINES, Ont. (CP)—A strange fish animal caught by T. E. Rutledge in the Welland Canal has remained unidentified for days on display in a store here. It is a foot long, has a flat head, four partially-formed feet, a tail like an eel, and peculiar knobby breathers where a fish's fin would be.

## Rewards For News Of Peter Levine

Father of Kidnapped New York Boy Believes He May Be Dead

NEW YORK (AP)—Murray Levine took formal cognizance today of a possibility his kidnapped son, Peter, 12, may be dead by offering \$5,000 for "information which will lead to the recovery of his body."

At the same time, he clung to a hope the missing boy still may be alive by offering \$25,000 for information which would lead to his recovery.

The lad disappeared at New Rochelle, N.Y., February 24, while on the way home from school.

### More Advanced Studies For Princess Elizabeth; Geography Favorite Subject

LONDON—Princess Elizabeth, heir to the British throne, will celebrate her 12th birthday tomorrow.

Barely 16 months have elapsed since the Princess became Heir Presumptive, but that space of time has seen big changes in her life. Not only has her father, King George VI, taken on onerous duties, but she herself has been directly affected.

As the Royal Heir, her education has had to be intensified. In several ways she has found that a Princess who may one day become Queen has much more to learn than a Princess who is to remain a Princess.

And, though presents and greetings are coming to Her Royal Highness from all parts of the world this month, the celebrations will have a more serious side. The date will mean alteration to her curriculum. More advanced lesson books will be introduced; the number of subjects themselves may be augmented; and she may find that her school hours have been slightly increased. Latin is a subject to which she will be expected to give more attention, so that she may ultimately read historic old documents in their original form.

### NO FRILLS AND NO CLOCK

The schoolroom occupied by Princess Elizabeth in Buckingham Palace is a light, airy apartment on the second floor. It has pastel decorations, and, though she shares the room with her younger sister, Princess Margaret, she has (Turn to Page 7, Col. 3)

### Two Thugs Rob Bank in Detroit

DETROIT (AP)—Two men, clad in overalls and carrying revolvers, held up a branch of the Detroit Bank today and escaped with a sum estimated by bank officials at between \$2,000 and \$3,000.

## THOUSANDS IN PANIC IN ASIA MINOR

Villages Shaken Down and Ruin Spread Through Large Part of Northern Turkey's Most Productive Agricultural Region; Eighteen Shocks Drive Many From Homes to Open Fields

### Three Die From Poison Liquor

TEWKSBURY, Mass. (AP)—Three patients of the Tewksbury State Infirmary were dead, a fourth was dying and eight or nine others were missing, superintendent Dr. Lawrence J. Kelley announced today after they had drunk denatured alcohol.

State police immediately were called in and began a search of the woods for the missing patients.

## FRANCOISTS IN COAST DRIVE

Insurgents Move South Along Mediterranean From Tortosa

HENDAYE, France (AP)—Unable to crack at once a well-placed government defence at Tortosa, Spanish insurgents today drove southward along the Mediterranean coast toward Castellon and Valencia.

Gen. Miguel Aranda's troops neared the outskirts of Alcala de Chivert, where a secondary feeder road from Albocacer joins the coastal highway after advancing 12 miles along an 18-mile front.

The new offensive threatened the chief coastal cities of southern government Spain.

At Alcala de Chivert, the insurgents had covered almost half the 40 miles from Vinaroz to Castellon and almost a quarter of the 83 miles from Vinaroz to Valencia.

Field officers said they expected little difficulty in taking Alcala de Chivert, a town of 6,000 population.

### AT FRENCH BORDER

PONT DU ROI, France (CP)—Insurgent troops today completed occupation of the Aran Valley, in the Pyrenees, hoisting the red-and-gold banner on the Franco-Spanish frontier.

Advance patrols attached to the insurgent forces striking eastward through the Pyrenees established contact with French border officials during the day.

The Aran Valley is in extreme northern Lerida province, about 40 miles from the tiny republic of Andorra.

## Grey Owl Debate On Two Continents

Despite English Stories, Late Canadian Was Half Indian, Says New Yorker

NEW YORK (CP)—There is no doubt in the mind of Hugh Eayrs, president of the Macmillan Company of Canada, that Grey Owl was "a man of Indian blood."

Mr. Eayrs, the late naturalist's publisher, today entered the controversy over Grey Owl's origin with the statement: "He never claimed to be wholly Indian. He claimed to derive on one side—his mother's—from an Indian tribe. Nothing has been said to disprove this, his own assertion, and in my opinion nothing will."

Mr. Eayrs' statement went on to say Grey Owl "followed the persuasions of the Indian," was a ranger and guide in the bush, a war-time sniper, "but still a half-breed Indian," and concluded: "In addition, he was a great Canadian, a great gentleman, a great prose writer and a great friend."

### DIVORCED WIFE SPEAKS

LONDON (CP)—Conviction

ANKARA, Turkey (AP)—Three hundred persons were killed and 20 villages shaken to the ground by violent earthquakes in central Anatolia, reports received here today said.

It was feared total casualties would be much larger when a count of the dead and injured was completed.

The quakes were felt Tuesday afternoon at Ankara, the capital, and at Konia, Kirshehr and Kayseri.

The quakes spread ruin through nine of the most productive agricultural districts of central Anatolia. Many villages were reported wiped out in the district of Yozgad and Kirshehr, respectively 100 miles east and 100 miles southeast of Ankara.

Panic-stricken thousands fled into the fields, not daring to return to homes weakened by the shocks.

Ankara suffered no loss of life but several buildings were badly shaken and some chimneys and walls collapsed.

Eighteen strong shocks were felt, beginning about 1 p.m. Tuesday and lasting until nightfall.

## New Italian Talks Tomorrow

French Envoy Expected to Make Proposals in Rome

ROME (AP)—French-Italian conversations are expected tomorrow to go into details of an understanding for peace, advancing another step toward what eventually may become a five-power pact to keep Europe out of war.

Instructions for proceeding with the talks were expected from today's French cabinet meeting, to be given to Charge d'Affaires Jules Blondel.

### DISCUSS U.S. AID

PARIS (AP)—Premier Edouard Daladier called a cabinet meeting today to approve an active foreign policy understood to include a plan to seek United States economic help for France. But an official communique after the meeting at the Elysee Palace said no definite action was taken either on financial or foreign affairs.

Occupying an important place in the cabinet discussion was a review of the negotiations now under way for a friendship pact with Italy.

that Grey Owl, famous Canadian naturalist who died last week, and Archibald Belaney, a native of England, were the same person was expressed today by Belaney's former wife, who obtained a divorce, remarried and is living in Twickenham.

The former Mrs. Belaney, who declined to give her present name, said Belaney had one of his toes amputated as a result of a war wound, and that if it could be proved Grey Owl was lacking a toe it would almost certainly prove his identity.

"There is no question of his having Indian blood in him," she added. "His mother was a pretty, typical Englishwoman. His father I never knew."

She said she married Belaney at Hastings in 1917, after which Belaney returned to Canada to be demobilized.

## ALBERTA MINE MAN KILLED

Two Injured in Blast in Surface Building Nine Miles East of Edmonton

EDMONTON (CP)—One man was killed and two injured, apparently seriously, in an explosion in the surface blacksmith's shop at the Marcus Mine, nine miles east of here, a few minutes after 8 this morning.

John Priser, 50, married, a resident of Beverley, lost his life. The injured are: Louis Bourassa, 56, married, Beverley, and John Dymtrick, 56, married, Beverley.

The injured men were rushed to a hospital in ambulances. There it was declared Dymtrick probably would lose one eye. Bourassa was burned badly. Both men probably would live, officials said.

The time element probably prevented a greater toll. It was the habit of miners to congregate in the blacksmith's shop before going under and 12 of them had just left the shop and were not in the mine when the blast occurred.

**SPARKS FROM AXE**  
Cause of the explosion was not determined immediately. Alex Crawford, mine manager, said there were acetylene gas tanks in the blacksmith's shop and these may have had some connection with the explosion.

At the time of the explosion, Crawford said, Priser was sharpening an axe. The sparks from the axe may have ignited gases, he said.

## NEW NORTHERN PROVINCE URGED

(Continued from Page 1)

Battle River district and the British Columbia Peace River block.

In part the brief reads: "Representations having been made by the Premier of British Columbia, asking that the province of British Columbia be enlarged by adding thereto the Yukon Territory and a portion of the Northwest Territories, the Peace River Chamber of Commerce desires to protest against such amalgamation."

#### DEBTS MENTIONED

The brief claims huge provincial debts have been accumulated under the present set-up, with most of the money being spent on the southern portions of the province to the neglect and detriment of the northern sections.

The northern sections of British Columbia and Alberta, the brief says, are set apart naturally and geographically from the rest of their respective provinces and could be served best by a common governmental administration.

The brief asks that the proposed area be entitled to representation in Canada's House of Commons in proportion to its population, and that it have at least three members in the Canadian Senate.

A plebiscite of the people in the districts before any break-up or re-allocation of sections of the proposed new province is also asked in the brief.

## Duplessis And Hepburn Talk

TORONTO (CP)—Premier Duplessis of Quebec arrived here early today to confer with Premier Mitchell Hepburn and Ontario cabinet members on various matters touching the two provincial jurisdictions. He went immediately to a downtown hotel, where the conversations will take place.

#### NEW POLICE PLAN

KAMLOOPS, B.C. (CP)—The municipal council here today was investigating a scheme whereby the municipality would be policed by the British Columbia Police force.

## GREY OWL DEBATE ON TWO CONTINENTS

(Continued from Page 1)

mortem discussion of the great naturalist's life.

Under a three-column heading the London News Chronicle prints an interview with Ada Belaney of Hastings, giving the life story of Archibald Belaney, who was born, raised and married in the village of Hollington, near Hastings.

(Grey Owl served in the Canadian Expeditionary force during the Great War under the name of Archie Belaney. He died last week at Prince Albert, Sask.)

Among other London papers, The Daily Herald quotes Ada Belaney as follows:

"Was Grey Owl my nephew? Of course he was!"

The Daily Express had a five-column heading on its story recounting Belaney's childhood desires to follow Indian ways and learn Indian folklore.

#### VIVID IMAGINATION

In the News Chronicle Ada Belaney says:

"Archie was an ordinary English boy with a vivid imagination and passionate fondness for animals. He used to keep snakes in his bedroom as pets. When 17 he threw up an estate agent clerk's job, went to Canada and returned with the Canadian forces during the war and met once more Florence Holmes, a friend of the family, with whom he had played when a boy. He married her in 1917 at Hollington, but the marriage was later dissolved."

"He returned to Canada and wrote us every five or six years. In one of these letters he said he had adopted the Indian name of Grey Owl, but it was not until 18 years later, when he came to lecture in Hastings, that we saw him again. After the lecture he appealed from the platform to anyone of the name of Belaney to come round and meet him behind the platform."

#### AGENTS STORY

The Times of London, on the other hand, gives a preferred place on its editorial page to a letter from Lovat Dickson, the late naturalist's agent and friend.

London, denying the charges, said Grey Owl was born in Arizona, the second son of an Indian scout named Macneil and an Apache woman, that he came to London in a Wild West show and returned to Canada with an Ojibway woman and her two sons.

Later, Mr. Dickson added, he was adopted into the Ojibway tribe and named Grey Owl. He joined a Montreal battalion in 1915 after a little trouble with police which was "not to his credit," taking the name of Belaney, which was the married name of his father's sister.

Records show Grey Owl was naturalized at Prince Albert, Sask., in 1934. He gave his birthplace as "near Hermosillo, on an Indian encampment in the state of Sonora," northern Mexico, and the approximate date, September 18, 1888.

After the war, the writer went on, he married Anahareo, a full-blooded Indian maiden. During the last years of his life Grey Owl earned more than \$10,000 (\$50,000) from books and lectures.

"I can testify that he never spent a penny himself, but devoted the whole proceeds to the furtherance of his cause to relieve the sufferings of animals the world over," Mr. Dickson said.

#### PRINCIPLES REMEMBERED

The London Star, in an editorial, says the great majority of the people will go on remembering Grey Owl as a man who in a world where men are cruel to men taught and encouraged millions of children in their natural love of animals. Whether he was Indian or English, the Star adds, seems immaterial, for the thing that really matters about a man is where he is going, not so much where he is from. His was a mission of which any man might have been proud.

The Star says it is not concerned with the few people who are amused by pottering about his origins.

Lovat Dickson, queried by the Press Association concerning the marriage and birth certificates of Archibald Belaney dug up by London newspapers, replied: "I don't know to whom they refer, but they are certainly not Grey Owl's."

At birth the scalp of a human being has the necessary structure to produce about 121,630 hairs.

#### FUNERAL NOTICE

Members of Victoria-Columbia Lodge No. 1, A.F. and A.M., C.R.C., are requested to meet at the Masonic Temple, Fugard Street, at 1:30 p.m., Thursday, April 21, for the purpose of attending the funeral of our late brother William Scott, who was a member of Laurel Lodge No. 13, A.F. and A.M., at Roseburg, Ore., U.S.A. Members of local lodges, and sojourning brethren in good standing, are invited to attend. By order of the Worshipful Master, CHAS. NICKERSON, P.M., Secretary.

## Coogan Earnings Put at \$1,300,000

Mother Says He Did Not Make \$4,000,000 as Boy Actor

LOS ANGELES (AP)—On file in court here today is an affidavit by Mrs. Lillian Coogan Bernstein, mother of Jackie Coogan, declaring Jackie earned only \$1,300,000 in the movies and in vaudeville as a minor of the \$4,000,000 he claims he earned.

She also states Jackie earned between \$30,000 and \$40,000 in the last two years.

The affidavit was filed Tuesday in answer to her 23-year-old son's suit against her and her husband, Arthur L. Bernstein, for an accounting of his film earnings.

William Rains, Jackie's attorney, announced yesterday two legal documents had been found in the Los Angeles hall of records showing "Jackie's parents, Mr. and Mrs. John R. Coogan, in January, 1923, obtained dismissal of a petition of guardianship on the grounds they anticipated the creation of a trust for the investment and preservation" of Jackie's estate.

Mrs. Bernstein has testified in a deposition hearing that no estate was ever created for Jackie; that none exists now; that his earnings as a minor reverted to his parents, and that with the death of Jackie's father, the money reverted solely to her.

## New Appeal For Canadian Unity

P. Martin, Ontario M.P., Urges End of Provincial-Federal Disputes

PORT STANLEY, Ont. (CP)—Too much emphasis cannot be placed on the importance of present disputes between the provinces and the federal government, Paul Martin, Liberal, M.P. of East Essex, told an intercommunal banquet last night in this Lake Erie village 12 miles south of St. Thomas. He urged greater national unity so as to make Canada a greater nation.

"The lawmakers of the Dominion find themselves in a constitutional strait jacket, on national issues because of the dual jurisdiction of the provincial and federal governments," Mr. Martin said. "I believe that above the interests of the individual provinces come the interests of all the provinces together, the nation as a whole. If we do not believe this, let us break up the attempt of the Fathers of Confederation to COURT DECISIONS."

Mr. Martin said that since the constitution of the United States was drawn up, that country's Supreme Court had interpreted it so as to give more and more power to the federal government, but in the case of Canada the Privy Council in London gradually had withdrawn power from the federal government and placed it in the hands of the provinces. By a decision last year, in spite of the Statute of Westminster, Canada was held to be incapable of signing any treaty affecting an individual province.

"Canada has been reduced by the Privy Council to the point where it has not the power of simple nationhood," said Mr. Martin, who declared the intention of the Fathers of Confederation was not a mere union of provinces but "a strong government, a central authority which would tend to create a great nation."

## Labor Wants New Act Interpreted

VANCOUVER (CP)—The Vancouver and District Trades and Labor Council today sought an "official" interpretation of the British Columbia Conciliation and Arbitration Act adopted by the last session of the Legislature.

Percy Bengough, council secretary, said the organization had asked for a meeting with Premier Pattullo, Attorney-General Gordon S. Wismer and Labor Minister George S. Pearson in this regard.

"If the act was taken as written it would recognize the trades union movement," Bengough said "but there is a part in the act which sets out who employees are and does not mention the trades union as the bargaining agency."

He described the Labor ministers' "present interpretation of the act" as a "wonderful set-up for a company union."

For 35 years, North Carolina has rated her chemical industries among the five leading industries in the state.

## CAGE WITH MEN FALLS 800 FEET IN ONTARIO MINE

(Continued from Page 1)

#### WORKERS SURPRISED

Miners were unable to understand how any of the men escaped death. They expressed the belief the plunge of the cage must have been checked in some manner before it struck the bottom.

Each cage for carrying men and ore is fitted with a set of "dogs" to which the cable operated by the hoist is attached. When the tension of the cable is released the "dogs," as a result of their design, spread out and catch into the timber siding of the shaft, stopping the fall of the cage.

It is said the hoist probably failed, thus releasing the tension enough to permit the cage to fall but insufficiently to allow the "dogs" to spread and check the cage.

## Smelter Fumes Award \$78,000

Compensation to Washington Residents Follows Trail, B.C. Hearings

OTTAWA (CP)—Residents of the State of Washington who claimed nearly \$3,000,000 as compensation for damages allegedly caused by fumes from the smelter at Trail, B.C., were awarded \$78,000 by the tribunal set up to deal with the matter. Its unanimous report was made public Tuesday.

At the same time the tribunal instructed the Consolidated Smelting and Refining Corporation, operators of the Trail plant, to maintain a corrective regime designed to prevent any further damage. The tribunal will meet again at the end of 1940 to ascertain corrective measures have been effective.

It was found no damage had been caused by smelter fumes during 1937, due to remedial measures adopted by the corporation costing, according to evidence given the tribunal, about \$10,000. Much of this was recovered through marketing of by-products arising from removal of chemicals from the smelter's fumes.

Established by authority of a convention signed by Canada and the United States April 15, 1935, the Trail smelter arbitration tribunal worked under the chairmanship of Jan Frans Hostie, a distinguished jurist of Antwerp, Belgium, with Hon. R. A. F. Greenshield, chief justice of the Quebec Supreme Court representing Canada and Charles Warren, former assistant United States attorney, representing that country.

#### CLAIMS ON VEGETATION

The report is designed to deal permanently with the claims that for years have occupied the governments of Canada and the United States. Property owners in a large area of the State of Washington adjoining the boundary near Trail claimed sulphur dioxide fumes in emanations from the smelters damaged vegetation.

Following long study by the International Joint Commission a convention was signed in 1935 by Canada and the United States agreeing on settlement of \$350,000 for damages arising up to the end of 1931, with the provision that a tribunal be set up to adjudicate on subsequent claims.

The tribunal was instructed to ascertain the amount of damage since January 1, 1932, and the steps to be taken to prevent any further damage.

The award of \$78,000 will bear interest from April 16, date the report was submitted to the two governments. This money, as was the case with the previous award of \$350,000 will be collected from the smelter corporation and paid over to the United States government for distribution among the claimants.

During the temporary regime covering the period until the end of 1940, when the tribunal will again study results of the corrective measures, supervision will be maintained by Dr. R. S. Dean and Dr. Robert F. Swain, who were scientific advisers to the tribunal.

#### TWO HELD FOR TRIAL

VANCOUVER (CP)—Charges of retaining stolen property were laid today against a 61-year-old blind Chinese watchmaker and his son as the result of seizure of 100 watches and other jewelry in a Chinatown jewelry store yesterday.

#### FOOT CRUSHED

PORT COQUITLAM (CP)—Robert A. Flanagan, 59-year-old Canadian Pacific Railway car inspector in this Fraser Valley town, lost his right foot today when he fell under a freight engine in the yards here. His left leg and hip were also hurt.

## Views Differ On Law Changes

Opinions in Vancouver On Proposed Pre-marriage Health Examinations

VANCOUVER (CP)—Prominent men in church and medicine today expressed varied opinions as to the advisability of amending British Columbia's marriage laws to make a health examination prerequisite to issuance of a marriage license.

The discussion was raised by announcement of Hon. G. M. Weir, provincial secretary, that a special committee would investigate the possibility of revising the provincial marriage laws.

Here is the comment of a few men:

Dr. G. F. Clement, president of the Vancouver-Medical Association:

"It would be ideal in some ways, but it would interfere too much with personal rights of the people. Education for voluntary physical examinations by everybody is something that seems to be more greatly needed."

Dr. J. W. McIntosh, city medical health officer:

"People don't like an innovation, but if such a plan as suggested was taken it would be a wonderful thing. People would be a lot happier if they entered into married life knowing they were healthy."

Most Rev. A. U. dePencier, Anglican Archbishop of the Diocese of New Westminster:

"Unless it is thought advisable by the majority, such legislation would interfere with personal rights."

## Canada's Exports Show Increase

OTTAWA (CP)—Canada's export trade in the fiscal year ended March 31 was the highest since 1930, it was reported today by the Dominion Bureau of Statistics.

Domestic exports totaled \$1,070,217,328, compared with \$1,060,181,906 a year ago, an increase of \$9,035,422, or 9 per cent. Export of foreign produce totaled \$14,600,920, compared with \$13,062,314 last year, an increase of \$1,538,606 or 11.8 per cent.

## PATROLS OF B.C. COAST ARE DEFENCE PLAN

(Continued from Page 1)

problems on the Atlantic with respect to the great cities of Boston and New York."

"Hence our defence problem is threefold," the minister said. "First, defence of focal sea areas where trade routes converge in the vicinity of our main ports."

"Second, defence of our main ports and coastline."

"Third, defence of our neutrality."

#### B.C. PATROLS

Mr. Mackenzie said it was contemplated that naval vessels and aircraft would patrol the entire British Columbia coast, but that for the more northerly regions facilities were being established "for both naval and air forces in the Queen Charlotte Islands and at Prince Rupert."

"These will be vitally necessary for the purpose of extending the scope of our patrol of the north and as jumping-off places for observation far out at sea," he said.

"Fixed coast defences, supported by the naval and air forces, are designed to block access from both north and south into the enclosed waters that surround Vancouver and Victoria."

Batteries of various types are being established at Albert Head and around Esquimalt and Victoria covering water approaches with their fire.

"In the same way at the head of Johnstone Straits (narrows in the northern passage between Vancouver Island and the mainland where Yorke Island is located) we are establishing a fixed battery covering the entrance to the Straits."

He also described the new battery for Stanley Park and other defences in Vancouver's immediate vicinity.

#### WHARF MEN BALK

MELBOURNE (CP-Havas)—Australian longshoremen today refused to load a cargo of tin aboard the Japanese steamship Atsuta Maru.

## Canada's Crop Outlook Bright

Moisture on Prairies Most Encouraging Factor as Seed Planted

By FRANK FLAHERTY  
Canadian Press Staff Writer

OTTAWA (CP)—Given a little more co-operation from the weatherman, Canadian farmers may look forward to a busy and successful year.

For the last few months the weatherman has been smiling on them and if he just continues to do so, much of the grief and worry of the last few years will be forgotten by harvest time.

A hasty survey of the Canadian agricultural situation as the spring seeding period begins points to more favorable conditions all across the country than in most years, though it must be pointed out it is several months too soon to start estimating the wheat or any other crop in terms of bushels, much less of dollars.

The most encouraging factor in the agricultural outlook in mid-April is the moisture supply on the prairies. During the autumn and winter the expansive wheat lands received abundant rain and snow.

### MOST RAIN IN 30 YEARS

In the Saskatoon district more moisture fell from September 5 to March 31 last than in any similar period in the last 30 years except one. The precipitation was exceeded only in 1920, when it was 8.21 inches.

That is typical of conditions over the whole prairie grain-growing area, including the drought-stricken sections of Saskatchewan and Alberta, parts of which have not produced a real crop in seven years.

Repeated dry years have exhausted the sub-soil moisture on

thousands of acres of prairie farm lands and it is not yet known how far that condition has been remedied. Some at least of the precipitation has penetrated to the sub-soil, but experts of the Department of Agriculture are careful about basing high hopes on the winter precipitation.

However favorable moisture conditions may be now, and it is agreed they are more favorable than at this time for years past, prairie farmers must have rain in June and July if they are to harvest a wheat crop.

Last year, owing to the severe drought in Saskatchewan, Canada's wheat production was only 182,410,000 bushels. The big year was 1928, when 566,000,000 bushels of wheat were threshed.

Soil moisture conditions in eastern Canada are also good, as the farmers began their spring operations and the winter has been kind to fall wheat, clover, pastures, fruit trees, bushes and shrubs. Here, too, the outlook for crops is much brighter than a year ago.

### Suggested Canada Bar All Japanese

PRINCE RUPERT (CP)—The junior section of the Prince Rupert Chamber of Commerce has endorsed a resolution of the Vancouver Chamber of Commerce—urging the Dominion Government to facilitate passage through Parliament of a bill to end the present "gentlemen's agreement" between Canada and Japan.

The agreement allows about 150 Japanese to enter Canada each year.

### Two Canadians Back From Spain

TORONTO (CP)—George Hayes of Winnipeg and Jack Lawson of Vancouver, who said they were fresh from a year's fighting with Spanish government troops, stopped off in Toronto Tuesday on their way home.

Neither was injured while in service. Hayes said he fought with the Lincoln Battalion, while Lawson said he had served with the English anti-tank troops.

### WHITNEY LOAN WAS \$1,081,000

WASHINGTON (AP)—George Whitney, partner of J. P. Morgan & Co., said today he had borrowed \$1,081,000 from Thomas W. Lamont in order to help his brother, Richard Whitney, restore securities and cash which the latter had misappropriated.

Testifying at the Securities Commission examination on the failure of the Stock Exchange firm of Richard Whitney & Co., on March 8, George Whitney said he had gone to Lamont, also a Morgan partner, November 23, and told him his brother "was in a jam."

Whitney later testified he had repaid the loan to Lamont. Gerhard A. Gesell, S.E.C. attorney, asked:

"Did you tell Lamont your brother had unlawfully used securities of a customer?"

"Yes," George Whitney replied.

### Will Press For Bread Inquiry

Plan of Dr. Lyle Telford, M.P.P. in Vancouver, Supported By Aldermen

VANCOUVER (CP)—Dr. Lyle Telford, Co-operative Commonwealth Federation member of the British Columbia Legislature is planning "immediately to renew" his drive for an inquiry into the bakery and milling industries of Vancouver under the Combines Investigation Act.

Dr. Telford, M.P.P. for Vancouver East, made his announcement Tuesday after the civic social service committee had offered him its support in the investigation he started some time ago. The committee urged Dr. Telford be asked to make application for a statutory investigating tribunal.

"I am happy at the prospect of getting action," Dr. Telford said. "I want the investigators to come here and see the proof, now that we have civic support I believe we can get somewhere."

Aldermen who adopted a special committee had been hampered in its inquiry by lack of power to take statements under oath.

"Contradictory statements left us in a fog," Alderman John Bennett, committee chairman said. "We had no power to swear witnesses and a number of points were not satisfactorily explained. I feel there should be a special investigation regarding the amount of moisture in bread."

### Suspends Dealings In Burco Stocks

NEW YORK (AP)—The New York Curb Exchange today announced it had suspended dealings in preferred and common stocks and warrants of Burco, Inc., an investment company.

The exchange said it had learned that on March 3 last the management was changed and that subsequently 85 per cent of its diversified portfolio was disposed of and 325,000 shares of common stock of Delta Oil Co. Ltd. of Canada were acquired at a cost of \$725,000. The exchange said it had ordered Burco Inc. to promptly inform its stockholders and the public of the nature of the changes in the portfolio.

C. E. Gray Jr., president of Burr & Co., bankers, who formerly sponsored Burco, Inc., said following the announcement he and his associates some time ago had disposed of their holdings to Ralph Robb of Boston, an attorney, who represented himself as the purchaser. Gray said he and his associates knew nothing concerning the subsequent changes in portfolio.

### BOSZORMENY IN VIENNA

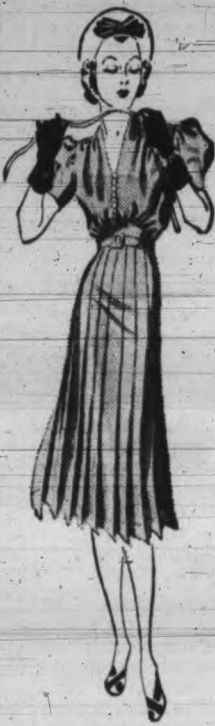

VIENNA (AP)—Zolan Boszormeny, Hungarian Nazi leader, arrived in Vienna from Budapest Tuesday, fleeing from a 32-month Hungarian prison sentence.

"How on earth did Murphy win that cross-country race? He was dead-beat when I saw him." "Oh, he sat down to rest on a wasps' nest, and after that there was no holding him back."

### Girl Falls Five Stories; Is Killed

NEW YORK (AP)—Thais Giroux, 26, a Broadway specialty dancer, fell to her death from a fifth floor hotel room early Tuesday after telling a friend she was "sick and tired of it all."

The friend, John Stoppell, 29, was questioned by police and then released. Assistant District Attorney Carroll A. Boynton listed the case as a suicide.

Stoppell, who said he had known the girl for two years, told officers he had accompanied her to her hotel room Monday night from a Greenwich Village tavern.

Miss Giroux, who was nude, died of a fracture of the skull.

She came here from Butte, Montana.

### U.S. Farm Prices Below Last Year

CHICAGO (AP)—With the start of the 1938 cycle of United States farm harvests only a month away, market prices of major agricultural commodities today are 13 to 50 per cent less

than a year ago and 29 to 57 per cent below recovery highs. However, prices are 33 to 177 per cent higher than the lows recorded during 1932 and 1933.

Farmers have larger quantities of produce to sell compared with a year ago, but the increased supply will not fully offset the severe price drop that has accompanied the business slump, analysis of statistics in Chicago commodity markets disclosed.

### PRE-MARRIAGE TESTS BACKED

VANCOUVER—Claiming to represent 90 per cent of Vancouver's organized young people, delegates to Greater Vancouver and New Westminster Youth Congress decided Monday afternoon that marriage licenses should not be issued without a certificate showing applicants to be free from venereal disease.

This recommendation by the Congress "Youth Rehabilitation Commission," headed by Jerry Hundal, an East Indian, and Miss Ruth Sanderson, was passed unanimously and without discussion.

It came from a committee which

Victoria's Largest Complete House Furnishers

Standard Furniture Company  
127 YATES STREET

had as its announced advisers: Ian Eisenhardt, provincial director of physical education; T. H. Hutchinson, general secretary of the Y.M.C.A., and Allan Chambers, former chairman of the Youth Advisory Committee of the Dominion Employment Commission.

### TO RESUME PRACTICE

OTTAWA (CP)—R. K. Finlayson, chief private secretary to Rt. Hon. R. B. Bennett, retiring Conservative leader, said Tuesday night he would leave Ottawa April 30 for Winnipeg, where he would resume his law practice. Mr. Finlayson has been Mr. Bennett's secretary since 1932.

WEDNESDAY, APRIL 20, 1938

## **Washington Moves**

**THE HOUSE OF REPRESENTATIVES**  
Foreign Affairs Committee at Washington has approved a bill to create an "Alaskan International Highway Commission." Under its provisions President Roosevelt would appoint the commissioners whom the measure would authorize to co-operate directly with "any similar agency from the Dominion of Canada" on the construction of a highway from the Pacific Northwest to Alaska through British Columbia.

A project of this kind has been discussed in the newspapers of Canada and on the hustings at various times in the last few years. For the most part public opinion has enthusiastically endorsed the general principle of the undertaking, not only because—as far as British Columbia is especially concerned—it would mean an annual volume of travel through this province of incalculable monetary value, but also because of the importance of such a highway to the general defence plans of the Pacific Northwest.

Representative Magnuson stated in Washington yesterday, it should be noted, that the Canadian part of the highway would cost approximately \$13,000,000, and he added it was "part of America's duty" to help finance the connecting link with Alaska. "We have spent five or six millions on highways in the Latin-American republic," Magnuson said, "so we ought to co-operate on this link, which is only part of the same international highway system."

Premier Pattullo has discussed the project with the President of the United States and with the Dominion Government. He is now in Ottawa and already will have heard with a good deal of satisfaction that the administration at Washington has taken the first step toward the construction of machinery necessary to begin active negotiations with this country on the subject. What Prime Minister King and his colleagues in the cabinet think about it we may know as soon as they have had an opportunity to examine the proposal from the standpoint of willingness to negotiate as expressed by the bill approved by the House of Representatives Foreign Affairs Committee.

It does not require much surplus imagination to visualize the varied business that would accrue to British Columbia if direct road communication could be established from the United States to Alaska through this province. There will be objections from the timid ones who see behind any proposals of this kind the spectral bogey of annexation or domination or sacrifice of national rights, and what not, but those who are concerned with realities as represented by a growth in our population, a substantial increase in tourist business and every form of trading directly or indirectly associated with it, will look forward to the day when this undertaking which Premier Pattullo and his government so enthusiastically favor becomes an accomplished fact.

## **Malta's Defences**

**RT. HON. LESLIE HORE-BELISHA**, Britain's Secretary of State for War, has been to look over Britain's defences in the Mediterranean island of Malta. It was arranged that on his way back to England he would drop in and figuratively embrace Premier Mussolini—perhaps add his personal need of praise for the consummation of the Anglo-Italian friendship pact.

A dispatch from Valetta informs us, however, that the formal ending of nearly three years of tension between Great Britain and Italy will not alter Britain's plans to push armament on the island, already ringed with fortresses above and below the ground and protected by an electrically-controlled necklace of mines around its headlands. One of the main steps now being taken to strengthen the island under Mr. Belisha's scrutiny is the construction of an anti-submarine, torpedo-proof defence boom in Valetta harbor. Moorings already are in place and the boom itself, although not completed, is a great improvement over the one hastily built during the Ethiopian war. It consists of a row of small buoys from which a steel mesh is suspended, with an electrically-controlled gate to permit passage of war and merchant ships.

Mr. Hore-Belisha only a short time ago shocked certain elements in Great Britain when he overhauled the army general staff and definitely upset the apparent orthodoxy in the matter of staff promotions. He is a very energetic and purposeful gentleman, but a Liberal and a Jew, and it would not be surprising if he kept his tongue in his cheek while in Rome—presuming his itinerary still includes the Holy City.

## **Hitler's Birthday**

**TODAY IN BERLIN ADOLF HITLER** celebrated his 49th birthday. To mark it specifically he reviewed a parade of picked units of the German army. Austrian troops, too, were given a place in the procession—for the first time. The Reichsführer wore the simple brown uniform of a Nazi storm trooper.

We of democratic Canada do not like the Hitlerian type of government. We are persuaded that its author himself will be called

to account eventually for many of the policies he has espoused. His crusade against Christianity, persecution of the Jews, suppression of all the media of public thought by the imposition of the vicious requirements of the Nazi scheme—this is the totalitarian ensemble, the challenge to the ideology of human progress for which our conception of government stands. It is the direct, the most blatant, antithesis of all we like to call democracy of the British pattern.

Entering his fiftieth year today, nevertheless, the head of a Teuton state of approximately 73,000,000 people displays the highest grade of his militaristic wares. Foreign attaches are there to note the Reich's formidable collection. The second-half hour of the parade, the dispatch says, drew particular attention to motorized weapons of the most deadly kind.

Tragic as it may seem to all who care to ponder this man Hitler—the ruler of two countries humbled in defeat nearly 20 years ago—is the arresting fact that he today is figuratively laughing in the faces of some of those who compelled the German statesmen of 1919 to sign on the dotted line in Paris.

Thus Hitler joyously celebrates his 49th birthday. But that parade in Berlin, with all its implications and the obvious impression it was intended to create in the minds of the "visitors" who saw it, was far from a flattering tribute to European statesmanship of recent years.

## **An Unprecedented Migration**

**A VAST MIGRATION** "PROBABLY UNPRECEDENTED in modern history" is taking place in China as a result of the Sino-Japanese war, according to the Far Eastern Survey of the Institute of Pacific Relations.

From the Shanghai-Nanking-Hangchow area at least 15,000,000 people, it is estimated, have fled westward. Nanking, capital of China, has seen its population shrink from over 1,000,000 to 300,000, exclusive of the Japanese garrison. Since the beginning of the war the residents of Hangchow have been reduced from 600,000 to 100,000.

The congestion in certain areas is becoming extremely serious. In the middle Yangtze, the provincial governments of Kiangsi and Hupeh have settled war refugees on new uncultivated lands. Where often 10 per cent to 30 per cent of a village population has fled to some neighboring district, and when no land is available, readjustments are imposing insuperable difficulties.

During this spring only a fifth of those normally tilling the soil are at work on the rich Yangtze delta. In the Japanese-occupied areas with a total population of no less than 90,000,000, the agricultural decline has brought about an acute situation. "In some of the worst places no spring planting is being done and nothing is turning green. In fact, very often even the fields of winter crops sown before the exodus have not been harvested."

Even in normal times the Chinese peasant has little or no reserves in cash or grain. Hence the lack of spring planting, the need for reseeded and for replacement of agricultural implements, the difficulties of marketing under war conditions and of exporting with a confused and restricted currency are all "combining to create a stupendous problem."

## **Idleness and Crime**

**THERE HAS LONG BEEN A SUSPICION** that idleness was no breeder of virtue. Especially when it was coupled with other old offenders—like bad companions and lack of proper home influence.

But now idleness marches to the head of the class as the chief reason for crime, according to Warden Lewis E. Lawes, of Sing Sing Prison. Some years ago gambling headed the cause-of-crime list. Liquor came second and immorality third. Liquor and immorality are still holding their places, but gambling is way down the line and idleness takes its place.

Warden Lawes blames the depression and points to the result. He said: "There are more first offenders getting into difficulty in tough times than when times are good. That's why the proportion of first offenders in prison is increasing lately."

The Warden did not add what he might have: that most of these first offenders would have been both honest and at liberty if they had been able to find jobs. Idleness will always be productive of crime, in just about the direct proportion that men cannot get work.

## **Notes**

If the champion, Joe Louis, keeps putting on pounds, Schmeling may need Hitler's protection at the next meeting, as a German minority.

Hitler is annoyed now because Brazil restrains Nazis within its borders. It seems that no nation has a right to restrain racial minorities except Germany.

In every wet and raw gust  
A voice sings loud and clear:  
"Oh, to be in August,  
Now that spring is here!"

An archaeologist announces the discovery that Mesopotamia had bathrooms 5,000 years ago. These those archaeologists go, plumbing the depths of history again.

## **THOSE BABY BIRTH PICTURES**

From New York Post

The national heads of the Y.M.C.A. and the Y.W.C.A. have endorsed the "Birth of a Baby" pictures, which brought a ban on an issue of Life in some parts of the country. Similar photos always have been and still are on view at the Museum of Natural History, the Public Library and the Museum of Science and Industry.

# **Loose Ends**

By BRUCE HUTCHISON

## **VERY GOOD FRIENDS**

**IT IS CHEERING TO READ** of the present happiness of the people of England. According to the cables, there is rejoicing all over the Kingdom over the new pact with Italy and everybody, from the Prime Minister down, went on Easter holidays with a light heart, and the countryside was crowded with folks who felt free once more to enjoy the picnics and bluebells, now that Mussolini is a friend again.

Yes, Mussolini is now our very good friend and ally. It has taken him quite a while to arrive where he is now in our affections. During his first years, after the killing of his opposition politicians by gunmen of the fascist regime, he was regarded as little better than a murderer, and during the Ethiopian business he was generally considered by the pious as something like Anti-Christ, a place formerly held by the last Kaiser of Germany.

Now he is our very good friend. The Kaiser is also our very good friend. Hitler is to be our very good friend next. If it hadn't been for the little misfortune of Austria, he would have been our very good friend by this time. However, all that is forgotten and forgiven now and the new negotiations should make him our very good friend within the next couple of months. Soon we shall have very good friends on all sides.

The great question raised by these new and affecting friendships is this: How long does it require for a gangster to become a gentleman and our very good friend? How does the ordinary Statute of Limitations apply to fascist statesmen? After how many years do international criminals get pardoned?

At present there is no satisfactory arrangement about this. People don't know when they go to bed at night, patriotically hating some foreign yeggman, whether they will wake up in the morning and find that he is their very good friend. Why, a large part of the wrong-headed British public hasn't really begun to love Mussolini yet after weeks of careful coaching by the British government. There are people in this very town who still have a cheap prejudice against Hitler. There are many narrow-minded British Columbians who still object to the rulers of Japan; who will probably be our very good friends in a year or two.

There should be some recognized arrangement covering these conversions. It should be understood by some international convention that after a man has been a successful international gangster for, say, five years, he automatically becomes a respectable citizen and entitled to our love and sympathy. Perhaps, in this modern, swift-moving world, five years is too long. Say two years, then. Or even a year. Certainly it is unfair to ask every statesmanlike thug to serve an apprenticeship like that of Mussolini, who has been in the process of conversion ever since the war.

There is too much hypocrisy about these things. There was far too much hypocrisy in our attitude of piety toward the League and collective security, which cracked as soon as Britain's interests were involved, because the British have too much sense to ruin themselves to save somebody not half as good or useful.

Now there is too much hypocrisy about the new surrender to fascism. The Empire has surrendered to the dictators and we ought to admit it in the interests of ordinary truth. It surrendered to the dictators because that seemed to serve the Empire's purposes best. It surrendered to Hitler and Mussolini out of fear of Stalin. It wasn't a nice thing but it seemed at the moment the way to avoid ruining the future of the Empire and probably of civilization.

But where there was hypocritical lip-service to the League before (and the British government got elected by promising to support it, and then promptly sold it out) there is too much hypocrisy about the present deal that we are living in a mad world, and in such a place, as in any institution for the insane, you can't act sanely if you want to survive; especially when they happen to hold the lunatics want to get hold of. And the last country which should complain about the surrender to the dictators is Canada, which as the most glittering territorial prize in the world, is defenceless, and doesn't want to fight to preserve any of the other small nations.

So charge your glasses, friends, and drink to our new and very good friends.

## **STREET SCENE**

From Ottawa Citizen

What with all the outward aspects of our daily life becoming so thoroughly "functionalized," "streamlined," and "stripped of non-essentials," it's getting so a man can't have any fun at all any more.

Something in the soul cries very distinctly for an adequate supply of non-essentials. . . . Just a little curlicue here and there, once in a while. Nothing at all in the soul cries for a return to what might be called "The Embroidered Age," but it would add to the excitement of streamlined metropolitan scenery if a person could occasionally encounter . . . say . . . such a phenomenon as a strong man performing in the ultra-modern window of a Bonnet Shop Moderne.

Take wooden Indians. Somebody did take them. They not only provided a pleasant distraction for the eye during a lunch-hour stroll, but made it easy to distinguish a cigar store from a beauty shop.

Those pitiful lost tribes cannot, of course, be brought back now from their celestial hunting grounds, but something can be done about the bare spots in front of the cigar stores. Would it be too much to suggest that these vacant sidewalk positions be turned over, together with their responsibilities, to the men who would otherwise be spending the coming summer months sitting on flag poles or roller skating from here to there?

Anyway, what the tidiers-up of street scenery ought to keep reminding themselves as they go along is that most people enjoy nothing so much in the way of scenery as something to look at.

# **How Civil Service Regards Criticism Of B.C. Government**

From a Civil Servant Correspondent.

**THE RANK AND FILE** of this province are not complaining about the provincial income tax. It is the most equitable tax that was ever devised. It is based on earnings, with generous deductions, and at the present ratio of taxation the most fortunate are those who have the privilege of paying the most to the government. Considering that the men who make up these boards of trade derive their incomes from the people and the natural resources of this province it should not hurt them a great deal to make a reasonable contribution to the province's welfare.

Almost simultaneously with the plan for the abolition of provincial government regulation, this energetic and ambitious exporter, Mr. MacMillan, is defending and advocating the export of raw logs, the most iniquitous exploitation of our natural resources that has been perpetrated by the people for years. Our legislators have their troubles in protecting our interests against the encroachments of private profiteering, who to gain their ends, would abolish the legislation altogether. Regulation hurts them badly, and the provincial government is the body charged with the protection and regulation of our heritage.

The idea of turning all the income tax collection over to the Dominion Government is ridiculous and should be strenuously resisted.

**THEIR suggestion to the Rowell Commission** of the Dominion Government policing the province and municipalities is comparable to a situation related in Leacock's "Discovery of England." When about to address a gathering the chairman in his opening remarks stated that owing to non-payment of dues and the falling off of attendance they had to go in for cheaper lecturers, and he had great pleasure in introducing Mr. Stephen Leacock of Canada. We are to have our policing done by a cheap force, according to the whims of the Boards of Trade.

British Columbia on the cheap; cheapen everything but increase profits is the prevailing slogan. To an extent, some of the other provinces have tried this experiment, but none of them have yet balanced their budgets or reduced taxation.

England, that model government on which the Dominions are patterned, has metropolitan, county and city police; the United States federal, state and city police. Democracies the world over have long seen the wisdom and practicality of civil police forces responsible through their representatives, to the people who elected them. Russia, Germany and Italy on the other hand sponsor the state police, responsible only to the dictators, and such bodies apparently have the favor of the Boards of Trade.

Inspired by the Canadian Chamber of Commerce of the east, where the infiltrations of Fascism are already being felt.

**AMONG other things** the Boards of Trade assert that the Provincial Department of Public Works should be amalgamated with the Dominion Public Works Department and cut out duplication. It makes one wonder where they get their ideas.

The Dominion department attends to harbors and wharves; the provincial department attends to our highways. Where, then, is the duplication? If we amalgamate the two we will naturally have to turn over the provincial revenue to the Dominion, and every time we wanted an appropriation we would have to go hat in hand to Ottawa.

The suggestion of replacing the provincial legislature with a legislative council appointed by Ottawa is the coup de grace. Appointed by Ottawa—and only a couple of weeks ago everybody was talking of a possible war because Hitler replaced the regular government of Austria. And he, too, has suggested a plebiscite.

We have a glaring example of Ottawa administration in the Canadian Broadcasting Corporation and the recent increase of radio licenses. Far away fields look green, but we must be looking through green glasses if we can visualize the province being better administered by appointed wise men of the east than it is by the elected representatives of the people.

**EDITORIALY**, a Vancouver daily suggests that the Rowell Commission is just another commission. If we inject a little common sense into our thinking we will realize that it cannot be much else. It is undoubtedly a conscientious and hardworking commission inquiring into the different phases of government services, but really it is a duplication of itself. In Ottawa some 300 men, representative of all

Now—more

# **Housing Feature In New Roosevelt Prosperity Spending**

By RODNEY DUTCHER

WASHINGTON.

**THE BIG NEWS** is that the Roosevelt administration has decided to try to "spend" the country out of the depression.

The decision finally was reached by the President and WPA Administrator Harry Hopkins at Warm Springs. Further developments are rapidly unfolding.

Half a dozen plans for pumping money into the economic system, backed and gress-agented by as many groups, are being pushed around in the air. There are plans for pure spending and plans for pure lending, schemes for lending in such a way that only part of the money will come back and schemes for lending so that none of it will come back.

It is not unlikely that the old PWA, whose machinery has been kept oiled for a program such as is now imminent, will be merged with WPA and that the whole works-recovery program will be co-ordinated under Hopkins. In order to get a fast start, the merged organization would begin at once on projects of both agencies which have been proposed and studied but have not been acted on because of lack of funds.

Prominence of Harry Hopkins in the Roosevelt councils and in administration of the spending program makes it certain that comprehensive if not favorable consideration will be given to a large scale housing program, under government direction and financed by government funds. Hopkins always has wanted to build houses with WPA labor.

## **HOUSING PLANNED ON PROGRAM**

Various ideas as to housing as a part of the new spending program are as far up in the air as anything else, but a significant amount of attention is being devoted to possibilities of large-scale erection of pre-fabricated homes.

Some government experts insist that mass production of cheap pre-fabricated homes represents the only way to build cheap individual houses. They say several production units are ready to start off in a big way and that WPA labor could be used to lay out sites, streets, cellars and water mains as well as to put the houses together.

According to the pre-fabrication experts, it is largely a question of getting the public used to this type of house and if someone will just get a lot of them up there will be stimulus for a huge new industry.

But this is only one idea among many and opposition from building trades unions, building material interests and other groups is likely to kill it. Early indications are that pump-priming proposals of whatever type will be closely scrutinized in Congress and perhaps subjected to consideration.

The proposal to turn the public works program over to Hopkins, assuming that Roosevelt decides he wants to do that, is one which conceivably may cause an uproar in Capitol Hill.

The average Englishman falls for a blond quicker than the average American male is supposed to.—Sinclair Hill, British film director.

Shades of opinion, sit for months each year wrangling over and thrashing out the policies of the country in the best interests of the people as a whole; in British Columbia 48 similarly-minded men spend weeks doing the same thing for our own particular area. The process goes on in the other provinces, occupying the time and talents of more or less men for the same purpose.

How, then, can we expect a commission of five men, sitting here for five days listening to unsound, eastern inspired doctrines, to remedy all our ills and create the perfect state. Some of the pronouncements made before the commissions were the best arguments for the preservation of our provincial legislatures which were created at Confederation for a purpose, and with a degree of success that purpose has been carried out by the many governments that have controlled our destinies in the meantime.

Every government is living on borrowed money, and the cries of balanced budgets are just catch-words designed to confound the public. In this respect British Columbia's government is no better, and certainly no worse than any other government in the world.

## **B.C. DEFENCE EASY**

From a Correspondent

As we read of schoolchildren in Europe being taught how to use gas masks and civilians being instructed in precautions against incendiary bombs, it is interesting to note a local naval expert's view that residents of the British Columbia coast are not likely to be called upon to take the same grim precautions against attack from the air. This local officer's opinion is that defence of the British Columbia coast is 80 per cent a naval problem and protection of the coast is not a difficult problem, providing common sense is used by people who know the coast. He points out this coast is 4,000 miles away from any possible enemy, making many limitations as far as attack from the air is concerned. Airplane bombs he thinks could frighten and destroy, but they could not capture, and if enemy aircraft did reach here they would be very careful how they used their bombs. They would be more intent on firing to cripple port facilities than upon people's houses. The only way an enemy could come to this coast and do much damage would be by ships. For a base for shelter and secrecy a ship might hover somewhere outside, possibly off the west coast of Vancouver Island or off the Queen Charlottes. There mere knowledge that there are guns in place for the defence of the coast would have a lot of effect in stopping the approach of enemy ships.

## **BETTER ENGLISH**

By D. C. WILLIAMS

1. What is wrong with this sentence? "I appreciate you telling me about it."
2. What is the correct pronunciation of "avid"?
3. Which one of these words is misspelled? Symptom, simplicity, simulation.
4. What does the word "cogitable" mean?
5. What is a word beginning with int that means "endless"?

## **ANSWERS**

1. Say, "I appreciate your telling me about it." 2. Pronounce the a as in at, not as in ate. 3. Symptom. 4. Capable of being thought or idea. "Creation is cogitable by us only as a putting forth of divine power."—Sir W. Hamilton. 5. Interminable.

## **Parallel Thoughts**

Art thou bound unto a wife? seek not to be loosed. Art thou loosed from a wife? seek not a wife.—1 Corinthians 7:27.

For any man to match above his rank, is but to sell his liberty.—Massinger.

## **FAME**

Charles Hanson Towne, in the New York Sun

He sought the shining hills.  
He strove to touch the sun.  
To grasp the stars within his hands,  
And win them, every one.

No valley roads for him,  
No peaceful glades of rest;  
He yearned for higher paths of bliss,  
A flame within his breast.

He gained the summit, reached  
The lofty heights of fame;  
Then longed for still sweet evenings  
Where no one knew his name.

—Staples, Main Floor

CUSHIONS in square or oblong shapes. Covered in good grade floral sateen. Some with piped edges. **49c**  
Spencer Day, each

—Staples, Main Floor

### DELAY APPEAL IN DRUG CASE

Gordon Lim Hearing Set to Foot of List When Errors in Book Discovered

The Gordon Lim case, in which five Chinese were each sentenced at Vancouver January Assizes to seven years in the penitentiary upon conviction on charges of conspiracy to distribute opium, will be argued in the Court of

Appeal at the end of its present sitting here.

With Hon. Gordon Wismer, K.C., Attorney-General, and H. Castillon appearing for the crown, and C. L. McAlpine, K.C., and John Farris for three appellants, hearing of the appeal was sent to the foot of the list yesterday when difficulties arose over new grounds for appeal and errors in listing of certain exhibits.

The appearance yesterday was the first made by Attorney-General of British Columbia in the Court of Appeal of British Columbia since his appointment to the cabinet post.

Appeals in the case of Chang

Sing Jung and Lee Hoy, were abandoned.

Those for whom argument will be presented are Gordon Lim, otherwise known as Lim Fong Duck and Lim Yuen; Wong Ying, otherwise known as Lum Ho and Lum Hor.

#### NEW APPEAL GROUNDS

Fourteen grounds for appeal were listed in the 473-page appeal book prepared for the case. Yesterday the Attorney-General said several new grounds had been added. He asked time to consider the new grounds to prepare his case. Mr. McAlpine faced the difficulty of certain errors in the

appeal book respecting identification of the exhibits, the Attorney-General said. Mr. McAlpine explained the difficulty, and with both counsels agreeing, the case was put to the foot of the list.

One of the most elaborate narcotic cases in British Columbia in years, the trial in the lower courts excited international attention. The contention was put forward that a narcotic ring was distributing opium to purchase small arms for use in China.

Mr. Castillon went to the Orient to gather certain material for the crown's case and Mrs. Elizabeth Smith Friedman, expert cryptologist of the United States with

a great reputation during the Great War, was brought out from Washington, D.C., to break down code messages involved.

#### PRESENT "CRUCIFIXION"

A well-filled church heard Stainer's "Crucifixion" on Good Friday evening at St. Paul's Naval and Garrison Church, Esquimalt. The cantata was given by a slightly augmented choir of 26 voices. Tenor solos were taken by Harvey Dobson, Harry Craven and James McVie, bass solos by Arthur Crane and W. Rhodes.

The majestic chorus, "Fling Wide the Gates," with the tenor

solo, "How Sweet Is the Grace," particularly well given, while "God So Loved the World" had great depth of feeling. "The Appeal of the Crucified" showed how the choir grasped the fuller meaning of the words in no uncertain way. The congregation, joined in the several hymns.

At the close Rev. Arthur Bischoffberger gave a vote of thanks to those who had given so much of their time to preparing this beautiful cantata.

The choir was under the direction of C. F. Boulter, who is the church organist.

### Death Sentences Given at Barcelona

BARCELONA (AP) — Thirty-nine persons were sentenced to death by two special courts sitting in high treason cases Tuesday. Four persons received sentences of 30 years' imprisonment. Spanish government officials said reports of mutiny among troops in barracks at Barcelona were entirely false. The reports, taken by travelers to the French border, said newly-enrolled troops had refused to go to the front.

### Priests Slain In Spain Are Listed

VATICAN CITY (AP) — Loservatore Romano, the Vatican newspaper, published statistics Tuesday listing 1,379 priests and members of religious orders allegedly slain by government forces in Spain. The newspaper said the figures supplied by the College of Propaganda of the Faith did not include secular priests "who have been killed by the hundreds." Bahoons, unlike most monkeys, live mainly on the ground.

## Married At St. Barnabas Church

Miss Doris Benwell  
Is Bride of  
Mr. Douglas Dakers

In the presence of a large assembly of friends, the marriage of Doris Adah, daughter of Mrs. E. G. Benwell, 1218 Hillside Avenue, and Mr. Douglas John Dakers, only son of Mr. and Mrs. A. Dakers of McNair Street, was solemnized yesterday evening at 8 at St. Barnabas Church by Rev. F. Comley. The lovely Easter decorations were supplemented with fresh blooms for the occasion.

Entering the church on the arm of her brother, Mr. R. C. Benwell, by whom she was given in marriage, the bride wore a wedding gown of white mirror velvet, modelled on Princess lines with full skirt, the bodice featured shirring in the front and at the back covered buttons extended from the neck to the low waistline, and the drop-shoulder sleeves were lined with pink velvet. Her silk net embroidered veil was held in place with three strands of pearls and a ruching of the net in coronet style.

To complete her bridal attire, she carried a shower bouquet of Ophelia rosebuds and white carnations.

### THREE ATTENDANTS

Mrs. S. A. Benwell, sister-in-law of the bride, was matron of honor in a dress of turquoise blue lace, over the same shade of tulle, the skirt of which was bouffant. She wore a bolero jacket of the lace and her "off-the-face" hat of silver straw was trimmed with tiny pale pink and blue flowers. Her bouquet was of pink carnations and blue sweet peas.

Miss Veda Dakers, sister of the bridegroom, was bridesmaid in a dress of peach lace over matching tulle, fashioned in redingote style, and her turban was of lace and tulle trimmed with pale blue flowers. Pink carnations and blue sweet peas formed her bouquet. Little Miss Doris Benwell, niece of the bride, was a dainty flower girl in a Kate Greenaway frock of pink tulle and blue sash, a poke bonnet of tulle trimmed with pale blue forget-me-nots. Her Colonial bouquet was composed of pink and blue flowers.

The bridegroom was supported by Mr. James McCague and the ushers were Messrs. T. Packford and S. A. Benwell, brother of the bride. Dr. J. E. Watson was at the organ and during the signing of the register accompanied Mr. Victor Moore, who sang Handel's "Where E'er You Walk."

### RECEPTION HELD

At the conclusion of the service, a reception was held at the home of the bride's mother, where the guests were welcomed by Mrs. Benwell, wearing a dress of royal blue georgette, with navy blue and white hat and by Mrs. Dakers, in a navy blue dress embroidered in silver and a navy blue hat. They wore corsage bouquets of pink rosebuds.

The wedding party stood in the window embrasure in the drawing room, where palms were banked, and from the ceiling was suspended a large white wedding bell. Refreshments were served from a table centred with mauve and white sweet peas, mingled with star-light tapers and flanked with tall lighted white-tapers in silver holders. The three-tier wedding cake adorned one end of the table.

Mr. and Mrs. Dakers left on the midnight boat for Vancouver and on their return to Victoria will make their home on North Quadra Street. For traveling the bride donned a dress of navy blue with embroidered bolero jacket, a grey tweed topcoat and navy blue hat, with other accessories in grey.

Out-of-town guests at the wedding included Mr. and Mrs. D. H. Benwell of Nanaimo, and Mrs. Bryce Blake and her son Gordon of Vancouver.

Among the many gifts received by the young couple were a silver tea service, tray and a check from the B. Wilson Company where the bride has been employed for a number of years, and a mahogany mantel clock from Melrose Company Ltd., where the bridegroom is employed.

There are about 15,000 parking meters installed in United States cities.

## Well-known Couple Wed Today

Miss M. P. Ruddock  
Is Bride of  
Mr. L. A. Mainwaring

The Easter decorations in St. John's Church provided the setting of a quiet wedding this afternoon at 2 when Rev. F. L. Stephenson united in marriage Marguerite Patricia, younger daughter of Mrs. Ruddock of Victoria and the late Mr. B. G. Ruddock, and Mr. Lawrence A. Mainwaring, son of Mr. and Mrs. H. D. Mainwaring of Victoria.

Given in marriage by her brother-in-law, Mr. E. Cooper, the bride wore a gown of white satin with overdress of French starched lace, made with train effect and a long-sleeved bolero. Her wedding veil of embroidered silk net was confined beneath a coronet of orange blossoms, and fell in shoulder length over her face. She carried a Colonial bouquet of gardenias, pink rosebuds and mauve and pink sweet peas.

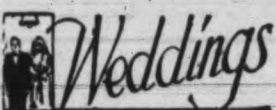

She was attended by her sister, Miss Mimi Ruddock, who wore a dress of orchid georgette, trimmed with ruchings of net in matching tone, while on her head she wore a bandeau of ruched georgette in a darker shade of orchid, adorned with violet and pink flowers, over which was draped a shoulder length veil. Her Colonial bouquet was composed of pink carnations and mauve and pink sweet peas. Mr. W. Murray was groomsmen.

Following the marriage service, a small reception was held at the home of the bride's brother-in-law and sister, Mr. and Mrs. E. Cooper, Monteith Avenue, where Mrs. Ruddock, wearing a grey tulle crepe gown, with navy blue hat and grey accessories, and Mrs. Mainwaring, in blue printed silk with hat to match, welcomed the guests. They wore corsage bouquets of pink carnations.

During the reception the bride party stood in front of the fireplace which was banked with greenery and spring flowers. The tea table was centred with a two-tier square wedding cake, with tall pink tapers in silver candlesticks flanking the centerpiece.

Mr. and Mrs. Mainwaring left on the afternoon boat for Seattle, the bride traveling in a powder blue silk dress, with powder blue velvet coat trimmed with broad-tail and with hat and other accessories in matching tone.

On their return home they will reside at Langford Lake for the summer months.

### PARFITT-FESANCO

WINNIPEG (CP)—Martha Gertrude, daughter of Mr. and Mrs. Gregory Fesanco of Winnipeg, and Harold C. Parfitt, son of Mr. and Mrs. M. Parfitt of Victoria, were married last night in Tabernacle Baptist Church here. The ceremony was performed by Rev. Edgar Bailey, assisted by Rev. Evan Whidden of Brandon, Manitoba.

The bride, given in marriage by her father, wore a becoming princess gown of white lace. She carried Calla lilies. Following an informal reception, Mr. and Mrs. Parfitt left for Victoria where they will reside at 1312 Vining Street.

## Gorgeous Gown For King's Bride

Countess Apponyi's  
Wedding Dress  
Studded With Jewels

PARIS (AP)—The wedding dress which Countess Geraldine Apponyi will wear when she marries King Zog April 27 was sent to Albania yesterday after inspection by the King's representative.

Countess Apponyi chose the dress herself from designs taken to Tirana nearly a month ago by representatives of Chanel.

The dress, with a richly embroidered train, 15 feet long and a veil of the same length, is of white satin. Both the dress and its train, which is two yards wide at the end, are elaborately embroidered with silver threads in a flower pattern, and studded with rhinestones, pearls and silver paillettes.

On her head the countess will wear a high diadem of white enameled flowers from which will flow a full white tulle veil reaching down to the end of the train.

## A Lovely Easter Bride

Mrs. Thos. Stevenson, the former Miss Peggy Gelling, photographed after her marriage at St. Mary's Church, Oak Bay, on Saturday evening.

## Society

Dr. and Mrs. O'Callaghan of Calgary, Alta., are guests at "Brenta Lodge," Brentwood Bay.

Mr. and Mrs. M. B. Jackson, who have been on a month's holiday in southern California, have returned home.

Mrs. Gideon Hicks of Vancouver is visiting in Victoria and is the guest of her son-in-law and daughter, Mr. and Mrs. J. T. Ross, 1023 Fairfield Road.

Dr. John R. Tuck and Mrs. Tuck of Edmonton are visiting in Victoria as the guests of Mr. and Mrs. E. L. Hill, "Hobbycraft House," 29 Gorge Road.

Capt. and Mrs. R. W. McMurray of Regents Place left this afternoon for Seattle en route by motor to southern California. They will be away about three weeks.

Mrs. D. Nickerson of Vancouver, who has been visiting in Victoria for a few weeks with her mother, Mrs. Anderson, Shelbourne Street, returned today to her home on the mainland.

Mrs. Jean Herchmer of Vancouver and her daughter, Miss Betty Herchmer, have returned to their home on the mainland after spending the Easter season in Victoria as guests at the Empress Hotel.

Mrs. A. F. Griffiths entertained at Cherry Bank this afternoon with bridge in compliment to Mrs. C. F. Weston of Moncton, N.B., who is visiting her cousins, Mrs. A. J. Fraser and Miss Webber, Joan Crescent.

Mrs. Harry Fennell and her daughter, Flora, left today for their home in Edmonton, Alta. Mrs. A. Mainprize of Victoria is accompanying her daughter to Vancouver, where they will visit friends before returning home.

Miss Christine Baillie, and Miss Betty Richards of Shanghai, who are attending Strathcona Lodge School for Girls, have returned to Shawnigan Lake after spending Easter in Victoria with Dr. and Mrs. D. M. Baillie, Beach Drive.

Miss Elizabeth Ruggles returned to her home in the Uplands today, after spending the holiday skiing at Mount Baker Park with a party of friends. She returned by way of Vancouver, where Mrs. Harry Boyce entertained at the tea hour in her honor yesterday afternoon.

Mrs. G. H. Shipley gave a birthday party in honor of the ninth birthday of her daughter, Audrey. The invited guests were: Maybelle Harris, Shirley McMillan, Phyllis Lea, Betty, Isabel and Margaret Eriskin, Frances and Betty Sims, Kenneth Lea, Gordon Ritchie, Billy Shipley, Audrey, Donald, Jack, Ted and Barbara Shipley, Mrs. F. Sims, Mrs. C. Shipley, Mrs. H. Dobson and Mrs. B. Roy.

Mr. and Mrs. E. E. Colbeck have returned to their home, 351 Foul Bay Road, after visiting in Vancouver with friends over the Easter season.

Mrs. Gertrude Mitchell left today for her home in Calgary after visiting in Victoria as the guest of her mother, Mrs. S. J. Jackson, Durban Street, and her cousin, Mrs. E. E. Colbeck, Foul Bay Road.

Mr. and Mrs. G. H. Harman, en route home from California after a holiday in southern California, have been stopping at the Hotel Vancouver for a few days. Last night, Mrs. W. P. Kirkpatrick entertained at a dinner-party in their honor in the mainland city.

Miss Irene Chesworth has returned to her home, 204 Superior Street, after spending the holiday season at Port Alberni as the guest of her cousins, Mr. and Mrs. J. T. Swaluk. On Saturday afternoon Mrs. Swaluk entertained at the tea hour in honor of Miss Chesworth.

Mr. and Mrs. Fred Glendinning, who were married at St. Barnabas Church, Medicine Hat, on April 19, 1913, were honored at their home on Eberts Street last night, when a number of their friends and former residents of Medicine Hat paid them a surprise visit to offer congratulations and present them with a beautiful engraved silver tray on the occasion of their silver wedding anniversary. An enjoyable evening was spent and dainty refreshments were served. The self-invited guests included: Mr. and Mrs. A. B. Norris, Mrs. H. F. Wood, Mr. J. A. Macdonald, Mr. and Mrs. Jack Norris, Mrs. A. Hodges (Vancouver) and Miss Rita Norris.

Dr. and Mrs. Balfour Straith of Portland, who have been visiting Mr. and Mrs. Alex. D. Straith, Moss Street, over the holiday season, left last night for their home in Oregon. Yesterday afternoon, Mrs. Balfour Straith was the guest of honor when Mrs. Alex. Straith entertained at a bridge tea. The tea table was attractively arranged with a centerpiece of spring flowers and was presided over by Mrs. J. A. Bertwistle. The guests were Mrs. C. S. Healey, Mrs. J. R. Nicolson, Mrs. A. E. Osbourne, Mrs. Leslie Macdonell, Mrs. J. K. Hodges, Mrs. Arthur Webster, Mrs. Ronald Whittington, Mrs. Stuart Kenning, Mrs. A. L. Miller, Mrs. Fred Bartholomew, Mrs. G. Straith, Mrs. W. T. Straith, Miss Helen Straith and Miss Alberta Creasor.

Mrs. Duncan McBride entertained at a delightful tea at the Beach Hotel, Oak Bay, this afternoon in honor of Mrs. R. W. Mayhew. The affair was held in the lounge which was attractively decorated with flame-colored tulips and spring blossoms. Mrs. J. H. Fletcher, Mrs. C. H. French, Mrs. H. J. Pender and Mrs. J. O. Cameron presided at the daintily

## Firemen Fine Hosts To 900 Guests at Ball

Lieut.-Governor, Mayor, and Other Honorary Patrons  
Among Special Guests Last Night; Striking  
Decorations Admired

The firemen of the city are proverbially good hosts and their reputation was enhanced by the outstanding success of the annual ball of the Mutual Benefit Association of the Victoria Fire Department, held last night in the Empress Hotel.

The affair attracted over 900 guests. His Honor the Lieutenant-Governor, who was accompanied by Mr. Hew Paterson, A.D.C., and Mayor and Mrs. Andrew MacGavin, Commander and Mrs. C. T. Beard and Brigadier and Mrs. J. C. Stewart, were among the special guests. The reception committee included Fire Wardens Aldermen Archie Willis, W. H. Davies and W. Lloyd Morgan, in addition to Fire Chief Alex Munro and Deputy Fire Chiefs J. A. Raymond and R. Taylor.

### CLEVER DECORATIONS

Decorations are always a special feature of the firemen's ball and last night the organizers excelled themselves with a novel setting. The orchestra of fifteen pieces, under the leadership of Al. Prescott, was ensconced in a clever replica of a fire truck, with wheels made entirely of daffodils centred with "hubs" of scarlet tulips. The red painted sides of the truck were hung with axes, pipes and extinguishers.

At either end of the stage was a fire hydrant and behind was a gold curtain on which were

superimposed the letters "V.F.D." and the date "1938." The cleverly designed platform arrangement was the work of Messrs. J. Puckey, O. Griffin and A. McDonald, who were assisted by Mr. Stanley McKay.

### WHISTLE OBLIGATO

Souvenir programs in the shape of a fireman's helmet were supplied to every guest. The music was outstanding, and among the many popular numbers were several whistling numbers from current motion picture hits, including "Whistle While You Work," "I Love to Whistle," "The Donkey's Serenade" and as the supper waltz, "The Whistling Waltz" was played. Each of these numbers was accompanied by a tin whistle obligato, and many of the guests took up the refrain and whistled the air.

Supper was served in two sittings, and both the main dining room and the Tudor grill were used to accommodate the large crowd, the tables being effectively decorated with spring flowers.

Many congratulations on the success of this annual affair were tendered to the various committees, including the president, J. Abbott; vice-president, J. Broadwell; secretary-treasurer, G. Russell, assisted by Lieut. F. Briers, Lieut. F. Barber, W. Blair, A. McDonald and M. McConnell; and J. D. Puckey, master of ceremonies, assisted by J. McLennan.

## Decorated Tables Are Entered

Much Interest is  
Shown in  
Display For May 4

The decorated table display, which was inaugurated by Victoria Business and Professional Women's Club some years ago in aid of the Bay Wigley Memorial scholarship fund, will be held this year in conjunction with Spring Garden Week.

The display is to mark the opening day, Wednesday, May 4, and will be held in the Crystal ballroom of the Empress Hotel. This year, too, the Junior Women's Auxiliary to the Royal Jubilee Hospital are co-operating with the club, and present indications are that the number and beauty of the entries will be even greater than ever.

Entries are already being received, and the committee will welcome entries from anyone interested. The closing date for entries is April 30, and forms and entries may be obtained from Mrs. E. G. Maynard, 645 Yates Street, or from Mrs. D. D. McTavish, 615 Fort Street.

Attractive prizes will be given in all classes. This year an in-

interesting new class has been added for international entries, for which a special prize has been donated. Several entries are expected in this class from the American side.

## Honored On. Golden Wedding Day

VANCOUVER—Fifty years after their marriage at St. Andrew's Parish Church in Barnsbury, London, England, Mr. and Mrs. A. J. Boreham, formerly of Fort William, celebrated their golden wedding here Monday. A quiet family reunion brought together their son Bruce, formerly sports editor of the Calgary Herald, Winnipeg Telegram and Winnipeg Tribune, and now press representative of the Canadian National Railway, Winnipeg, and his wife, and another son, Frank, provincial manager of the Monarch Life Association here, with his wife and three children. Telegrams and other messages of felicitation poured in from all parts of the Dominion. Included in those congratulating the former Fort William city ticket agent of the Canadian Pacific Railway were Prime Minister W. L. Mackenzie King and D. C. Coleman, senior vice-president.

A happy feature of the occasion was the gift to Mr. and Mrs. Boreham of an illuminated parchment address signed by 75 of their old Fort William friends, which was received with a purse gold for Mrs. Boreham and a case of pipes for Mr. Boreham. Mr. Boreham's superannuation in 1929 climaxed a 40-year career with the Canadian Pacific Railway which he joined at Winnipeg in 1889. From 1900 until 1929 he was city ticket agent at Fort William, and a well-known citizen of the lakehead city.

**More Care Needed**  
LONDON—Post-natal clinics should pay more attention to anaemia and the muscular tone of women, said Aleck W. Bourne, chief surgeon of Queen Charlotte's Hospital, lecturing at Portland Place.

The regular monthly meeting of the Women's Union of the First Baptist Church will be held in the prayer room at 3 tomorrow. The guest speaker, Mrs. F. W. McKinnon, will give an Easter message on missions.

## TONIC IN FOOD FORM BUILDS UP YOUR PEP

**HAS DELICIOUS FLAVOR**  
"Get more minerals and vitamins" is sound advice, if your health and strength are sagging under the strain of the last few months. When your pep is low, you can bank on it that your supply of food substances, known as minerals and vitamins, is low too! And the tonic to brace you up is delicious Cocomalt. This tasty beverage provides you with re-vitalizing Iron, Calcium and Phosphorus. It is also rich in Sunshine Vitamin "D" and valuable Carbohydrates and Proteins. For new strength and energy mix Cocomalt in hot or cold milk and drink when convenient. Get this delicious, protective, scientific food tonic at your drug or grocery store in purity-sealed 1/2-lb., 1-lb. and economical 5-lb. cans. For further important information concerning the value of Cocomalt, write to Scott, Balfour & Co. Ltd., 1150 Hamilton Street, Vancouver, B.C.

## Peer's Daughter Mobbed

Her aristocratic station in life was no protection against the fury of a London anti-Fascist mob when the Hon. Unity Freeman-Mitford, above, daughter of Lord Redesdale, appeared at a Hyde Park "Save Spain" rally wearing a swastika armband. Miss Freeman-Mitford, a known pro-Nazi who has been called "the Ideal Nordic woman" by her friends Chancellor Hitler and Gen. Hermann Goerring, was set upon, kicked, beaten and her Hitler-autographed swastika armband snatched off.

### Windsors Holiday At Riviera Resort

MARSAILLES, France, (AP)—The Duke and Duchess of Windsor left last night for Antibes on the Riviera where friends said they planned to rent for several months the Chateau de Croe, owned by Sir Pomeroy Burton.

The Chateau has been rented during the past few seasons by Baron Eugene de Rothschild, the Duke's host at Ennsfeld, Austria, before his marriage.

The Duke and Duchess made reservations at an Antibes hotel

### MEN LOVE GIRLS WITH PEP

If you are peppy and full of fun, men will love you to dance and parties. BUT, if you are cross, gloomy and tired, men won't be interested. Men don't like "quiet" girls. For three generations one woman has told another how to go "zingling" with Lydia E. Pinkham's Vegetable Compound. It helps nature tone up the system, thus lessening the discomforts from the functional disorders which women must endure.

Make a note NOW to get a bottle of world-famous Pinkham's Compound today WITHOUT FAIL from your druggist—more than a million women have written in letters reporting benefit.

Why not try LYDIA E. PINKHAM'S VEGETABLE COMPOUND?

where they planned to stay until the negotiations for the Chateau were completed.

### Modern Etiquette

By ROBERTA LEE

1. You and your wife are having dinner guests—is the serving of cocktails your responsibility?
2. Should you offer cigarettes to the guests each time you reach for one yourself?
3. If there is no servant—should you answer the door?
4. You take your wife to a dance—should you see that she always has a partner?
5. Should you seat the woman on your right or on your left at dinner?

What would you do if—

You are a bachelor and have been entertained by married friends—

(a) Decide that bachelorhood excuses you from repaying their hospitality?

(b) Take them to a restaurant for dinner—or to a show?

(c) Take the hostess flowers, a book, or candy when you go to their house?

**Answers**

1. Yes.

2. Yes—if they smoke.

3. Yes, for the hostess has plenty of other duties.

4. Yes, and not assume the freedom of a stag.

5. On your right.

Best "What Would You Do?" solution—Anything but (a), (b), (c) if you can possibly afford it—or (e) if you can't.

The regular monthly meeting of the Royal Bride (Junior) Chapter, I.O.D.E., will be held this Saturday, April 23, at 2:30 at headquarters.

It is very important that all members be present as final arrangements for the forthcoming dance and concert are to be made.

### Inter-racial Marriages Rare Here

Fifth of B.C. Births From Pure English Stock

Mixing of Oriental and Occidental blood in British Columbia is very rare, it is indicated by the Bureau of Vital Statistics annual report, covering detailed segregation of figures for 1936.

The report shows that of 546 babies born to Japanese mothers, 545 had Japanese fathers. In the other case the father was Chinese. And of 109 babies born to Chinese mothers, 108 had Chinese fathers. The other had a white father.

There were five babies with Chinese fathers and white mothers, and two with Japanese fathers and white mothers.

One of every five births in British Columbia is of pure English Stock, the figures show. Out of 10,571 children born 2,191 had both English fathers and English mothers. And, all told, 3,839 babies had English mothers and 3,583 English fathers.

Scottish is the next most numerous line. There were 575 children born of pure Scottish extraction and in all 1,621 babies had Scottish mothers and 1,748 Scottish fathers. Most of the Scot fathers were married to English or Irish mothers.

Intermingling of Indian women and white men is shown. Out of 726 children born to Indian mothers, 681 had Indian fathers, 11 English fathers, four Irish, 12 Scottish, two Welsh, two French five negro and four Swedish.

### BIRTHDAY OF HEIR-PRESUMPTIVE MEANS CHANGE IN LESSONS (Continued from Page 1)

her own desk and school equipment. There are few "frills" about this schoolroom. Within the apartment, lessons are always given first attention. Above the electric fire hangs a big, colored map of the British Empire. There is a blackboard on an easel.

She starts her lessons at 9 sharp each morning and continues until 12:30. By 9 each day, with

"A pony was presented to her as a birthday gift."

the exception of Saturday and Sunday, she has to be ready for her governess, Miss Crawford, in whose charge she has been from her earliest years. Only the most urgent matters are allowed to upset this arrangement.

Never before in British history has so much been demanded of Royalty, and Queen Elizabeth long ago realized that her elder daughter, at least, would have to be educated more widely than any Princess had previously been.

A mere list of the subjects in which the Princess is taught is formidable. First, of course, there are the "Three R's"—reading, writing and arithmetic. Foreign languages (particularly French), political history, economic history, the story of the Empire, deportment, social training—these receive close attention. Once a week, too, Her Royal Highness has to bring out her "very own" history book and add something to its pages herself. It is a unique book, this, for it is really a scrapbook, into which she pastes newspaper references to the royal children of other lands and in which she has traced their relationship to her.

### LIKES GEOGRAPHY

To peep into the Buckingham Palace schoolroom at another time would be to reveal her sitting, deeply interested, while geography is taught to her with the help of the large-scale map on the wall. To Princess Elizabeth the subject is an essentially personal one. It was her dearly be-

### Married at Cathedral Recently

Mr. and Mrs. Robert Gordon Mowat, the former Miss Margaret Alexander, are shown above, centre, with Mr. David Mowat, the groomsmen, and Mrs. H. Gilbert, sister of the bride, who was her only attendant at the marriage which took place in Christ Church Cathedral last Saturday evening.

loved grandfather, King George V, who instilled in her a keen love of geography; her father, too, has fired her imagination in the same direction, for both have told her of their own experiences in foreign lands.

At the suggestion of Queen Mary, Princess Elizabeth has in recent months been taken to various places of historic interest. She has explored Hampton Court Palace, toured the Tower of London, and been to other spots where British history has been made. During journeys by road and rail, to Sandringham, Balmoral, and elsewhere, various historic places en route have been pointed out to her.

During her morning lessons, a half-hour break is allowed at about 10:45. She usually spends this interval in the Buckingham Palace gardens, if the weather allows. If it does not, she sometimes takes the opportunity to read a chapter or two from one of the books in her own little library.

Normally, the afternoon is set aside for her social education. For dancing and music lessons, tutors visit the palace twice a week. On one day each week, Princess Elizabeth goes to the Bath Club here for a swimming lesson. She often goes riding and cycling, too.

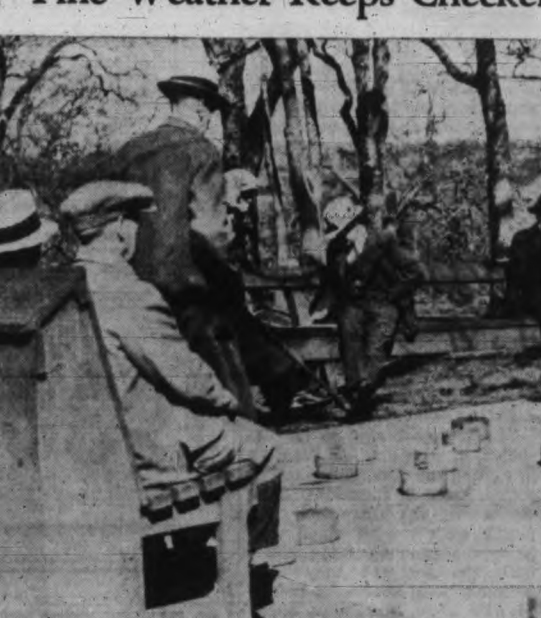

### RIDES HER PONY

A pony was presented to her as a birthday gift by her father a year ago. Nowadays, riding in Windsor Great Park is a rare treat than hitherto, when she lived with her parents at White Lodge, but the Buckingham Palace garden paths make excellent cycle tracks.

The Princess spends two afternoons each week partly in executing fancy needlework, again under the direction of her governess. Some of her needlework goes anonymously to charities for distribution to the needy.

When Her Royal Highness has passed her 12th year, her social education will receive still closer notice. The time is now not far distant when she will be expected to take a leading role in public functions. At little parties, Her Royal Highness acts as hostess—and has done so with a charm that has surprised even those who know her well.

### Fine Weather Keeps Checker Board Busy

This picture, snapped yesterday in Beacon Hill Park, shows a game of checkers being played on the big cement board between Col. R. H. Campbell, with his back to the camera, and Alex. Lorne. On the bench to the left another game is in progress. During the fine weather many keen games are played, and the benches around the board are usually filled with onlookers and advisers.

### Child Brides Few In This Province

Twelve Girls Wed Under 16; Majority Wait Till 21

Four out of every five girls in British Columbia wait until after they are 21 to get married. And very few boys—barely one in 20—take the leap before they reach maturity.

In the majority of cases the groom is two or three years older than the bride and the bulk of young love marriages are of girls from 21 to 23 years old and boys from 23 to 26.

These calculations are from the annual segregation of figures just issued by the Bureau of Vital Statistics for 1936.

Only 12 girls in that year could be classed as child brides. They were under 16 years old. Another 64 had reached their 16th birthday when taking the plunge. Just eight boys below 18 entered wedlock.

At the other end of the scale, three men over 80 went to the altar. Two of the brides were over 75 and the other was 69. Twelve women over 65 became brides and three of them were over 75.

But there were few December and May romances. One youth of 22 married a woman of 49 and a man of 79 married a woman of 29. A dozen men over the 50 mark took brides in the early 20's but, outside of these, most couples were of an age.

Only 58 of the 5,451 marriages were classed as illiterate and 57 of the brides, barely 1 per cent.

### Arion Club To Visit Eugene, Ore.

The Arion Club, Victoria's senior musical organization, will pay a visit to Eugene, Ore., on May 23 for the purpose of holding a joint concert with the Eugene Gleeman, who visited Victoria last summer in connection with the anniversary celebrations and gave a concert in the Armories. The visitors from Eugene have been urging the Victoria club ever since to make a return visit. This has been arranged, and the Arionites expect to leave on the afternoon of May 22, returning to the city the following Wednesday.

The Eugene concert will be held in the University auditorium and an attendance of 3,000 is anticipated.

The Victoria visitors will spend about twenty-four hours in Eugene and a royal welcome is promised. Present arrangements are for the two choirs, numbering 150 voices to sing two or three numbers together, and for the Arion choir to give most of the remainder of the program. The joint numbers will be conducted by the musical director of the Arion Club, William C. Fyfe.

The Arion Club is completing preparations for its second regular concert of the season which will be held in the Empress Hotel ballroom on Friday evening next at 8:30. A final practice will be held this evening.

The club is now in its forty-seventh season, but is as vigorous as ever. A well-balanced program has been arranged and it is expected that fifty singers will take the platform. The committee of the club is hoping for enthusiastic support from the public, if only to help defray the somewhat heavy expenses of the trip to Eugene next month.

It is estimated that there is enough peat fuel of good quality in Minnesota to last until the year 15,255, if burned steadily, a ton per minute.

### News of Clubwomen

St. Mathias Women's Guild will hold a sale of work and tea tomorrow afternoon from 3 to 6 in the Parish Hall.

Frances Willard branch, W.C.T.U., will meet tomorrow afternoon at the home of Mrs. A. H. Rogers, Summit Avenue.

The Ladies' Auxiliary to the Army and Navy Veterans are holding a court wheel drive party on Friday evening at 8 in the club rooms, Wharf Street.

Knox Presbyterian W.M.S. will hold a special thank offering Easter meeting tonight at 8 at the home of Mrs. McKinnon, 2655 Lansdowne Road.

The Easter thank-offering meeting of the W.M.S. of Oak Bay United Church, will be held tomorrow afternoon at 3, in the lecture room of the church. Miss McIntosh, returned missionary from China, will address the meeting.

The monthly meeting of the W.M.S. of the Metropolitan United Church was held in the schoolroom, Monday. Miss G. Baker, presiding. An Easter message from the president suggested the subject for this month, "The Shield of Faith." Mrs. Fredrick played the piano. Miss Braik, corresponding secretary, reported six letters to the sick. The treasurer reported results from the 50th anniversary were very gratifying. Mrs. Cliff told of 135 calls made to hospitals, sick and strangers; Mrs. Daniels noted 58 dime gift cards were in use. The study book given by Mrs. A. E. Whitehouse was on the subject "Ups and Downs" in West China. Miss

Braik took charge of the devotional period. Mrs. McGibbon read a leaflet, Mrs. Ackhurst led in prayer, Mrs. G. D. Christie moved a vote of thanks to Mrs. W. J. Cullum and her helpers for the success of the 50th anniversary dinner. The president also thanked Dr. Sippell and all those who took part in the pageant, Mr. Tupman and the choir, and Mr. E. Parsons, organist. Miss Phyllis Deaville sang two solos very sweetly. Mrs. George Deaville at the piano. The guest speaker was Rev. John Bell, First United Church, taking as his subject, "An Easter Message."

### HIS BACK ACHED FOR 4 YEARS

#### Kruschen Put Him Right

For four years, this man's back ached almost continuously. Now, at 57, he starts the day fresh as a daisy, and his back aches no more. Read his story:—

"I had continuous backache for four years. I looked on the black side of everything. Now, I write with extreme gratitude for what Kruschen Salts has done for me. The freshness with which I start my day's work is perfectly marvelous. After seven days of Kruschen, I felt better and could get up immediately, without any special effort. I am 57, and my early morning dose of Kruschen is my salvation."—J.T.

The kidneys are the filters of the human machine. If they become sluggish, impurities find their way into the blood-stream and produce troublesome symptoms—backache, rheumatism, and depression.

The numerous salts in Kruschen quickly coax your kidneys back to healthy normal action. As an immediate result, you experience relief from those old dragging pains. As you persevere, you lose your pains altogether.

**NEW... a CREAM DEODORANT**  
which safely  
**STOPS under-arm PERSPIRATION**

Arrid is the ONLY deodorant to stop perspiration with all these five advantages:—

1. Does not rot dresses, does not irritate skin.
2. No waiting to dry. Can be used right after shaving.
3. Instantly stops perspiration for 1 to 3 days—removes odor from perspiration, keeps armpits dry.
4. A pure, white, greaseless, stainless vanishing cream.
5. Arrid is the ONLY deodorant to stop perspiration which has been awarded the Textile Seal of Approval of The American Institute of Laundering for being HARMLESS TO FABRIC.

tance of schools in the upbuilding of a nation.

Today the training of the pupil was placed above the imparting of knowledge and stress was aimed at the provision of individual instruction and guidance based on the capacity of the pupil. The wider and optional courses provided today were regarded as essential and important parts of school life.

Austin Curtis, vice-president, was in the chair, and thanked the speaker. He was introduced by Rev. A. E. Whitehouse.

**Lumber Industry Late in Opening**

With the fine weather coming, the lumber industry of Vancouver Island looks for a bright year, even though the majority of the lumber camps have been late in opening, in comparison with last year's start.

Last year most of the camps were open by April 19. Today, for the first time this year, the majority of camps are in operation. With the heavy snowfalls and other poor weather condi-

## SET DATE THIS WEEK FOR POLL

Opposition's Standing Holds Interest in Three-way Dewdney Contest

The provincial government this week will set the date for the by-election in Dewdney to fill the seat left vacant by the death of the Conservative leader, Dr. Frank Patterson.

It is expected the government will face this test, its first since the general election of last June, during the third week in May. Official nominations will fall in the week of May 15 to 21, it is reported, with polling a few days afterwards.

The three major parties have endorsed candidates for the contest, the Liberals choosing D. W. Strachan, who held the seat

clearly up in up-island parts, the industry will soon be in operation in full force.

If, however, the Liberals win

formerly, the Conservatives Charles Jones, and the C.C.F. Miss Mildred Osterhout. Miss Osterhout is seeking to become the third woman member of the Legislature, which now has one of the fair sex on each side, Mrs. Paul Smith in the Liberal ranks and Mrs. D. G. Steeves with the C.C.F.

Outside of the fact that the government's newly-announced policies of Oriental exclusion and public utility control will be tested, chief interest in the poll centres around its possible effect on the standing of the opposition in the House. The Liberals already have a good majority in the House, and whichever way the vote goes their standing will not be seriously affected.

Conservatives, who are the official opposition, were left with seven members by Dr. Patterson's death, equal in strength to the C.C.F. Should they retain the seat they will still be the largest opposition group, with eight seats. If the C.C.F. capture Dewdney they will be entitled to claim recognition as the official opposition.

If, however, the Liberals win

the seat, regarded by political observers as a good possibility, the opposition groups will be left with equal standing, and it will be for the government then to decide which group it recognizes.

This, it is indicated, may be a more difficult task than appears on the surface. One of the main factors to be considered would be the voting strength of the two parties, and they were so close in this respect that a hair-line ruling may be needed. Conservatives got 119,521 votes as a party in the general election against 119,400 for the C.C.F., a difference of only 121. In Dewdney the Conservative candidate secured 596 more than the C.C.F. representative, and if this majority is cut down in the by-election the C.C.F. might lay claim to be the official opposition on the ground of representing more voters than the Conservatives.

A British woman scientist has been experimenting with properties of solid carbon dioxide, because an ice cream vendor called to her attention that his bicycle bell mysteriously rang when touched by this chemical.

**THE FORD V-8 TRUCK ENGINE**  
In the 2-ton trucks, this famous truck-type engine develops 95 horsepower. Because of the broad range of speeds over which it makes high torque available (1150 to 170 foot-pounds) it is a truly fine engine for highway hauling. It is equally good for such tough service as dump truck work. This engine develops 85 horsepower in 1½-ton trucks.

Ford V-8 2-ton and 1½-ton Trucks are bringing truck owners and operators a new lesson in Economy. They are showing that work done... time consumed... and hours in service are of primary importance in measuring the efficiency of a truck.

In 1938 more than ever the Ford Trucks do more work in less time, at lower cost. From first cost on, they bring you Economy all the way.

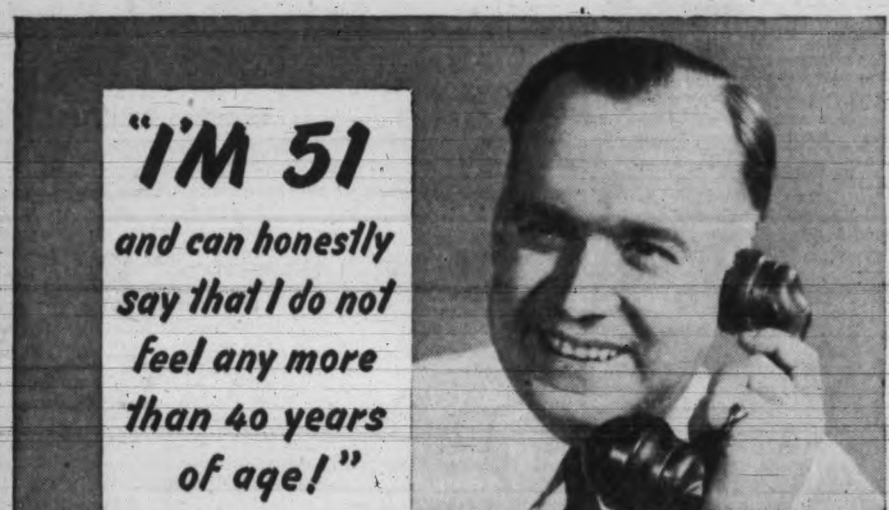

The speed and power of the V-8 truck-type engine provide the quick getaways and high sustained speeds vital to efficient performance. Chassis design, quality materials and correct load distribution make it possible to carry maximum loads with maximum safety, and with low fuel consumption. And the Ford Engine Exchange Plan slashes the time the truck is out of service for repairs and cuts repair costs.

Ford Economy is an established fact, proved on the cost-sheets of thousands of companies in every line of business. That's why there were more new Ford V-8 Trucks sold last year than any other make. That's why your Ford dealer invites you to discover Ford Economy for yourself. See him today and arrange for an "on-the-job" test—with your own driver and your own loads, over your own routes. No cost. No obligation to buy.

## NATIONAL MOTOR CO. LTD.

**"I'M 51 and can honestly say that I do not feel any more than 40 years of age!"**

"I started taking Phyllosan in 1934... and ever since I have felt like a new man. Whereas then I could not exert myself, today I can do anything necessary to carry on my business. I am now 51—and can honestly say that I do not feel any more than 40 years of age!" Mr. A.P. (Original letter can be inspected on application).

Literally thousands of men and women past forty are taking advantage of the exceptional re-energizing and vitalizing potentialities of PHYLLOSAN. Literally thousands of men and women have, through the simple use of Phyllosan tablets, taken a "new lease on life."

What Phyllosan has done for others it can do for you. Why not help yourself to the lasting benefits afforded by these splendid little tablets! Why not begin today—to renew your vital energies, to let Phyllosan help you feel years younger!

Medical research has provided us, in Phyllosan, with a simple means for avoiding unnecessary "past 40" devitalization and depression. Instead of taking for granted the dreary fatigue and the thousand kill-joy illnesses of middle-age, why not help yourself to overcome them! Phyllosan (pronounced Fill-O-San) has proved over and over again that it can be done... that men and women past forty can help themselves to overcome fatigue, dragging spirits, and the constant anxiety that comes of physical devitalization. Phyllosan has proved that men and women past forty, instead of suffering all these miserable ills, can win lasting vigour and buoyancy of spirit—can help themselves to feel, and look, years younger.

**'PHYLLOSAN'**  
(PRONOUNCED FILL-O-SAN)  
The word 'Phyllosan' is a registered trade mark

**PHYLLOSAN TABLETS**  
help enrich your blood...  
strengthen your nerves...  
build up your reserves of vital power. Recommended by many physicians, especially to those past 40.

Phyllosan was discovered through the brilliant research of one of the world's foremost physicians, DR. E. BUERGI, PROFESSOR OF MEDICINE AT THE UNIVERSITY OF BERNE, SWITZERLAND. Phyllosan is not a stimulant, contains no habit-forming drugs, no animal extracts. A product whose primary ingredient comes from purely natural sources, Phyllosan cooperates with the natural processes of your body to help enrich your blood, strengthen and steady your nerves, rebuild all your vital energies. And the beneficial effects are not temporary but lasting.

Just two tiny tablets before meals (3 times a day). Yet take them regularly and the results will probably more than gratify your expectations.

Don't delay helping yourself to a more vigorous, happier life. Join the thousands who have learned how to avoid unnecessary fatigue and devitalization, who have won the abundant vitality necessary to a full life. Start taking PHYLLOSAN tablets today!

Buy from your druggist... 85c. (\$1.50 for double quantity).

## Rural Teachers In Organization

Tentative Set-up to Be Submitted to Federation for Ratification

A proposal for a separate organization of rural teachers within the British Columbia Teachers' Federation will be considered by the federation at its 22nd annual meeting which is to begin this afternoon in conjunction with its 19th annual convention at the Empress Hotel.

The rural teachers formed a tentative organization at a meeting in South Park School yesterday afternoon. It will be submitted for ratification to the general meeting.

Tentative officers named were L. B. Mathews, Happy Valley School, president; D. R. Jeagers, Enderby, vice-president; and Miss Christine McNab, Keating School, Saanich, secretary.

A resolution passed by the meeting asked that boards of school trustees give special remuneration to rural teachers who supervise high school correspondence work and who taught grades 9 to 12.

Rural teachers expressed the opinion they would receive but little attention from the school world until they organized.

## Ex-Servicemen Teachers Meet

Returned Men in Federation Plan More Effective Organization in B.C.

The returned soldiers' section of the British Columbia Teachers' Federation move to make its organization more effective at a meeting in the Princess Louise Room of the Empress Hotel yesterday afternoon, attended by 15 ex-servicemen.

J. S. Wilson of Prince Rupert suggested that the aims and objects of the section should be expressly stated and given wide publicity, and a motion was carried authorizing the appointment of a committee to draft the aims and objects of the section. F. C. Corry was requested to act as convener of this committee, and to add two other names to complete it.

The committee was requested to take steps to ensure that all ex-service teachers be informed of any regulations that might be passed by the Returned Soldiers' Education Commission.

This commission has authority to assist dependents of returned soldiers if they wish to continue with higher education.

Rhys T. Edwards of South Slokan and Harry J. Feakes of Burnaby were re-elected as president and secretary respectively for the ensuing year.

A vote of thanks was tendered them for their efforts in establishing this branch of the B.C. Teachers' Federation.

Among the visitors present was Ald. Burgess J. Gadsden, representing the council of the city of Victoria.

Park Service naturalists say that coyotes are better mousers than cats.

## School Heads Hear U.S. Educationist

Dr. C. T. Williams Tells Convention Principals Can Give Philosophy to School

School principals have a duty to give to their pupils, through the instrument of their schools, a proper conception of fundamental values in their relation to world events, Dr. Curtis T. Williams, professor of education at the University of Washington, told the Principals' Association of the British Columbia Teachers' Federation at a dinner in the Empress Hotel last night.

More than 60 school principals from all parts of the province, here for the federation's 19th annual convention, heard Dr. Williams' address, which was entitled "The Principal's Philosophy in Supervision."

"Your supervision is effective in proportion as your practical work with the teachers is consistent with the way of life which you profess," he said. "If you adhere to the static philosophy of life your best work will lie in the re-education of your teachers, reformation that they in turn will enforce on their pupils. If, however, you believe in the democratic way of life, the social route is the only one to effective supervision."

"I believe that what children need is a more effective and satisfactory participation in the affairs of the community, a greater awareness and understanding of what is going on in the world, a better understanding of themselves and others, a better preparation to assume their responsibilities as citizens and a better chance to test their own mental powers and potentialities."

### TWO PHILOSOPHIES CLASH

Throughout his address Dr. Williams returned to the subject of the clash of the two fundamental ideas of what he termed the ultimate values in politics, static authoritarianism opposed to individualist democracy; in religion, dogma and ritual opposed to personal righteousness and service; in pure philosophy, the Stoics opposed to the Epicureans.

In education symptoms of the static philosophy were the doctrines of deferred realization, encyclopedic knowledge, logical organization of subject matter and the belief in verbalism as learning.

The symbols of the opposed philosophy were self realization through free expression, the psychological organization of subject matter, democratic participation in the life of the school, and direct experience as knowledge.

Dr. Williams was introduced by J. N. Burnett, president of the federation. S. D. Meadows, president of Simon Fraser School, Vancouver, was in the chair. Miss Catherine Dennison and Fraser Lister gave vocal solos, accompanied at the piano by Mrs. Paul Green.

### RECEPTION AT BUILDINGS

Later in the evening the teachers attending the convention were the guests of the provincial government at a reception in the library and archives at the Parliament Buildings.

Members of the cabinet and their wives were in the receiving line. Two orchestras played for the occasion, and a buffet supper was served. The buildings were illuminated in honor of the teachers.

Yesterday afternoon the group and sectional meetings of the convention were completed in readiness for the annual meetings of the Elementary Teachers' Department, the Principals' Association and the Secondary Teachers' Association.

### VISUAL EDUCATION

Visual education was much in

the limelight during the afternoon sessions. In South Park School J. R. Pollock, Vancouver, led a discussion on a visual teaching program for rural and the smaller elementary schools. His address was heard by a joint gathering of all sections of the elementary teachers' department. Col. W. N. Winsby, president of the Victoria Elementary Teachers' Association, was in the chair.

The use of motion pictures in schools was demonstrated at a meeting of the secondary teachers' physical education section in one of the rooms at the Empress Hotel.

The movies, some silent and some with sound, all had to do with the teaching of games. One of particular interest, filmed in London, traced the various stages by which aptitude in ball-handling games could be taught.

Other subjects dealt with at sectional meetings during the afternoon covered a wide field, including rural teachers' problems, new English courses, the geography courses one and two, the teaching of modern languages and the new senior high school courses.

A display of work by pupils in the various elementary school grades was shown in South Park School. Work by Victoria primary school pupils, by Vancouver Island rural school children were included in the exhibition.

Later in the afternoon the president of the federation took the chair at the annual tea held for all teachers interested in the work of the federation's magazine, the B.C. Teacher. Teachers who are returned soldiers also held a special meeting during the afternoon.

### PLAN OF STUDIES

At a luncheon meeting of the Secondary Teachers' Association in the hotel grill room yesterday, S. E. Fleming, assistant superintendent, of the Seattle high schools, stressed the importance of students entering high school making out a definite four-year plan of studies for themselves, even if not strictly adhered to.

In Seattle it had been found of value because it made the students formulate a clear idea as to the purpose of their studies.

Mr. Fleming called his address "Certain Aspects of the Problem of Guidance in the Secondary School." Guidance, he said, showed the student how to apply the information he got in the classroom to his personal needs in life outside the classroom. His advisers could bring him to give serious thought to what his future school life was to be.

This guidance was of as great value to students who were not going on to the university as to those who were. It could prevent the former from feeling they had reached a dead end when they left school.

## TELLS PART OF CREDIT GROUP

Cultivates Honesty and Integrity, Says H. B. Dawson in Luncheon Talk

The important duty which the Credit Grantees' Association performs in the community was told members of the association yesterday by Harry B. Dawson, secretary, in a luncheon address in Spencer's dining room.

The Credit Association was founded on the fundamental basis of cultivating honesty and integrity in business, Mr. Dawson said. When it was realized 65 per cent of the country's business was done on credit, it was evident that everything possible should be done to regulate it, he said.

Dealing with the situation locally he felt there was little doubt the association had aided in bringing about more diplomatic and courteous handling of the credit situation. It had also assisted the lessening of fraud, illustrating the size of the

field over which there was need for credit education, Mr. Dawson pointed out 60 or 65 per cent of buyers needed advice in handling credit. About 33 per cent were safe buyers and about 1 per cent seeking credit were no good.

In Victoria he said a close check had showed retail credit to be valued at \$1,000,000 a month, and on this basis the association was worth \$60,000 a year, or a dollar per capita on the basis of a 60,000 population.

Mr. Dawson's address promoted considerable discussion among the members who agreed his conclusions were closely coincident with actual business experience.

E. E. Evenden, president, was the chairman.

## OAK BAY FIRE TESTS TODAY

Pumpers to Have Three-hour Run at Ogden Point Docks This Afternoon

Oak Bay's two new pumpers will go through their three-hour undervoltage tests at Ogden Point piers this afternoon, starting at about 4. The test will be supervised by F. F. Dowling, Vancouver, chief engineer of the B.C. Insurance Underwriters' Association.

The test calls for the pumps to work with a 10-foot lift. It is expected the state of the tide will make the lift somewhat higher. This morning Mr. Dowling was making tests of the municipality's fire hydrant system.

The municipality this morning received from Premier Pattullo, who has been invited to officiate at the opening ceremonies of the department, the following telegram:

"Appreciate your invitation to open fire hall, and regret unable to fix date now. Returning to Victoria probably second week in May."

It is expected the ceremony will take place shortly after the Premier's return. The department goes into operation at 8 o'clock Friday morning.

Wrecked Boat's Dinghy Is Found

BANFIELD—Patrolman Mousley today picked up a battered portion of a 10-foot dinghy painted green, two miles east of Pachena Point. It is thought here it possibly belonged to the gasboat Gertie, which was wrecked in a week-end storm, with the loss of two lives.

## Hopes Raised For B.C.-Alaska Road

Commission For International Highway Proposed in U.S. Congress

Hopes that the long-talked-of B.C.-Yukon-Alaska Highway may be undertaken in the near future were raised in provincial government circles today by news from Washington, D.C., that the United States House of Representatives Foreign Affairs Committee has approved a bill to create an Alaskan International Highway Commission.

In the absence of Premier Pattullo, the government declined any public comment on the plan, but it was clearly indicated that the British Columbia government would offer the fullest co-operation in any feasible scheme to build the highway.

Before he left for the east Premier Pattullo indicated he intended to discuss the road plan with federal authorities. During this week the Premier is visiting in the eastern United States, and one report said he would take the matter up in Washington. The government is not advised where he has done so or not.

The bill approved by the Foreign Affairs Committee at Washington is sponsored by Representative Magnuson, Democrat from Washington State.

Under its terms the President would name the commission.

The commissioners would be authorized to co-operate directly with "any similar agency from the Dominion of Canada," on construction of a highway from the Pacific Northwest to Alaska through British Columbia. They would be directed to report to Congress within two years.

Chairman McReynolds (Democrat, Tennessee) told the Foreign Affairs committee Secretary of State Hull informed him the American minister at Ottawa already had sought co-operation of the Canadian Government.

The Secretary of State told McReynolds that "while the discussions with Canada have not yet produced tangible results, due in part to the natural desire of the Canadian Government to give our proposals the most careful study, we are not without hope that the active co-operation we desire, ultimately will be obtained."

Delegate Dimond of Alaska, told the committee a commission that investigated the highway project in 1930 reported it should be built "not only for its commercial value, but for its value in an important area of the national defence plan."

Representative Magnuson estimated the highway would cost approximately \$13,000,000 in Canada. He added it was "part of America's duty to help finance the connecting link with Alaska."

"We have spent five or six millions on highways in the Latin American republic," Magnuson said, "so we ought to co-operate on this link, which is only a part of the same international highway system."

At Ottawa it was announced the American Legation and the Canadian Government have discussed construction of the highway.

The government has made no decisions in the matter, either on construction or in co-operating with the United States in the project.

NO B.C. FUNDS

While co-operation from the British Columbia government in any feasible plan to build the road is assured, the province does not expect to contribute any funds at the present time. The belief here is that the financing will be backed by the United States Government, possibly under an arrangement with the Canadian Government through the proposed commission.

According to the report of a special committee which studied the highway scheme for the United States Government in 1933 the project would involve construction of 520 miles of road in British Columbia, 480 miles through Yukon Territory and 183 miles in Alaska. This would establish a through highway from Vancouver to Fairbanks, Alaska, a distance of 2,204 miles.

At that time the cost of the road was estimated at \$12,000,000 for the Canadian section and \$2,000,000 for the Alaska section. It would join the B.C. highway system at Hazelton.

Since then an alternative route has been suggested, branching off the B.C. road network at Port St. James and going by way of Finlay Forks. Costs and mileage of this route are not estimated, but it would undoubtedly be studied by the proposed commission.

Chemists are searching for a cheap substitute for the diamond to use in grinding and polishing hard alloys and tools.

## Around the Docks

With 650 passengers in all classes, Canadian Pacific flagship Empress of Japan, Capt. L. D. Douglas, reached Victoria early this afternoon from the Orient and Honolulu.

She was a day and a half behind schedule in sailing from Yokohama, where quarantine officials held her when a contagious disease was suspected in third-class quarters.

Many of the Japan's passengers will disembark here and transfer to Ss. Princess Charlotte, sailing at 4.30 for Seattle.

The big white liner has 150 tons of general freight for discharge at Victoria and will be at the Rithet piers about two hours before proceeding to Vancouver.

Word has been received here that the N.Y.K. Line will shortly order construction of seven new passenger liners—two for the Japan-Seattle-Vancouver service. The two ships for the North Pacific will be ready early in 1940 and will be available for the rush of travel to the Olympic Games in Tokyo.

The Seattle-Vancouver ships will be 520 feet in length, with a beam of 65 feet and will be 11,400 gross tons, powered with double Diesel engines. They will accommodate 235 passengers.

They will operate with Hikawa Maru, Hiye Maru and Helan Maru, which formerly called at Victoria. They were built in 1930 and are 11,000 tons each, with a length of 510 feet, a beam of 66 feet and a depth of 41 feet.

The whalers Green, Brown and Black are now bound for Naden Harbor, in the Queen Charlotte Islands, Green leaving yesterday and Brown and Black early this morning.

James Macfarlane, district passenger agent at Victoria for the Canadian Pacific Railway and Steamships, returned to his office this morning after his annual vacation trip to California. He went to San Francisco and spent some days there.

The British freighters Appledore and King Edwin are today at Ogden Point stowing parcels of Vancouver Island lumber. The former is taking 1,000,000 feet for the United Kingdom and the latter is en route to Australia and will leave tomorrow.

The Yarrow plant in Esquimalt Harbor is busy these days—with a large number of ships in for overhaul and construction of the new minesweeper proceeding on schedule.

Ss. Princess Louise is in the drydock, preparatory to commencing her Alaska service in a few days; the Malaspina and the Island King left yesterday after minor repairs; the St. Roche is still on the slipway; the Restorer is there for overhaul and the Motor Princess and the Beulah are lying idle.

## Vancouver Shipping

VANCOUVER (CP)—The new 55-foot tugboat now under construction at West Coast Salvage Company's plant for Hillside Sand and Gravel company Ltd., neared completion today.

The vessel, being built to specifications which will come within new Dominion inspection requirements now under consideration for this type of vessel, will be powered by 110-horsepower Diesel motors.

She will be launched about May 15.

Halibut sales on Vancouver Fish Exchange yesterday were: Moresby No. 3, 7,000 chicken at 5.1 cents, 8,500 medium at 6.9 cents and 200 large at 7 cents; Tot, 2,500 chicken at 5.8 cents, 9,500 medium at 6.8 cents.

The annual general meeting of the Missions to Seamen in Vancouver will be held at the Seamen's Institute this evening.

K. K. Reid yesterday was appointed chairman of New Westminster Harbor Commission at a meeting of the board in the Royal City. He has been acting chairman since the death of Charles A. Welsh, former head of the board. George L. Cassidy, who replaced Mr. Welsh as a member of the board, attended the session.

K. J. Burns, port manager, announced two tugboat owners had been prosecuted recently for violation of regulations governing

Scores of Cities in Eastern Canada and U.S. Will Move Clocks Ahead April 24

By the Canadian Press

Scores of cities in Eastern Canada and the United States will move the clock ahead an hour before going to bed next Saturday night and daylight saving time will be effective in most cases until midnight, September 24.

Montreal, Ottawa, Toronto and a dozen or so Ontario cities and towns will make the annual time-change together, though a few of them will revert to standard time before September 24. Among these are Hamilton, Dundas and Burlington, which will get back to normal September 10.

Included in Ontario places following the lead of the larger cities at midnight Saturday are: Welland, St. Catharines, Niagara

Falls, Oshawa, Bowmanville, Port Hope and Trenton. Whitby will move the clock ahead April 28, and Saint John, N.B., May 21.

#### REGINA CHANGES

Only prairie city observing "fast time," Regina made the change April 10. Winnipeg citizens, after a one-year trial, voted in a plebiscite last December against experimenting further with daylight saving time.

A scattering of Ontario cities and towns will come into the fold in May and June for varying periods—Kingston on May 1, Coburg May 16, Belleville June 1, Sudbury June 5, Peterborough June 12 and Napanee June 26.

Brockville will have fast time only during July and August.

The change will be made at 2 a.m., Sunday, in New York and most of New York State; all of

New Jersey, Ohio, Delaware, Connecticut, Massachusetts, New Hampshire and Rhode Island; in Philadelphia and most of Pennsylvania, Chicago and most of Illinois; Chicago and Minneapolis.

## BOYS SAVED AFTER SPILL

CHEMAINUS — Catapulted 20 feet from their bicycle when it got out of control and collided with protecting timbers at the end of the Chemanus wharf, Clifford, ten, and James, nine, sons of James Syme, were saved from drowning in 25 feet of water here Sunday night.

The two boys were riding on one bicycle, and when going down a 200-foot wharf runway, the brakes refused to work and the bicycle struck a timber, throwing both boys into the water. Clifford began to swim ashore but noticed his younger brother, who could also swim, was in difficulty. He swam to James and, seizing him by the coat collar, towed him to a landing ladder attached to the wharf, and both were helped to safety by James Bailey and taken to his home.

### Royal Oak

An Easter tea was held in the Parish Hall on Tuesday under the auspices of St. Michael's women's auxiliary. The hall was decorated with plum blossoms and daffodils and the tea table was decorated with lighted green tapers in crystal holders. Miss K. Oldfield welcomed the guests, and Mrs. E. Sexton was the guest of honor. Mrs. C. A. Booth and Mrs. G. Watling rendered solos, with Mrs. K. Mead-Robins as accompanist. Two readings were given by Mrs. H. Smallshaw.

St. Michael's A.Y.P.A. met in the Parish Hall with Earl Thompson presiding. Arrangements were made for a dance April 21

### SHIRLEY

Spurley Women's Institute met at the house of Mrs. T. E. Cross, and discussed the matter of access to the beaches along the new West Coast Highway from Sooke. The public works department will be furnished with a list of such places.

A boys' and girls' poultry club has again been organized, Plymouth Rocks being the breed chosen this year. A silver tea and mystery game will be held at the Shirley Hall on April 27.

## APPLE SURPLUS WORRIES U.S.

WASHINGTON, D.C. — The nation-wide "Eat-an-Apple-a-Day" drive moved 7,480,000 bushels of last year's gigantic crop out of storage during March, but even greater results in the final drive which got under way this week-end were foreseen here today by only one year of record, 1926, showed a greater production. That year the crop was 9,000,000 bushels larger than in 1937, but the problem of moving it to market was not so difficult, Mr. Miller added.

plus of the 1937 apple crop—the second largest in the country's history—12,060,000 bushels remained in storage April 1, according to Mr. Miller from U.S. Department of Agriculture figures. The total in storage April 1, he added, represented an amount 43 per cent above the five-year average of apples normally in storage on that date.

The apple crop last year totalled 211,000,000 bushels, or a total of 51,000,000 bushels more than average, Mr. Miller said. Only one year of record, 1926, showed a greater production. That year the crop was 9,000,000 bushels larger than in 1937, but the problem of moving it to market was not so difficult, Mr. Miller added.

"Industrial conditions were better in 1926," he said, "and the public bought more freely."

#### MARRIAGE STUNT

TORONTO (CP)—For love and \$100, pretty 21-year-old Anne Smith will marry Fred Cowan in the lions' den at the Thursday evening performance of the Toronto fire fighters' circus—providing no one forbids the ceremony. Miss Smith proposes to let the clergyman stand outside the cage and marry them through the bars.

India is experimenting with cottons and linters to find out which native kinds are best for making artificial silk.

# Trail Seeks New Referees

## Sports Mirror

By PETE SALLAWAY

AN ALIEN ATMOSPHERE, strange to Glasgow's sporting fraternity since 1929, hangs over the spacious Hampden Park as 11th-hour preparations are made for entry of Kilmarnock and East Fife into Scotland's soccer spotlight—the cup final to be played Saturday. Giant-killers of the current competition, these "outsiders" are ready to show skeptical Clydeside fans form that burst open the competition in preliminary rounds with resounding victories over top teams of the soccer world. They will play before a sell-out crowd.

Nine years ago, Kilmarnock won the trophy, and since then the final has taken a local-interest angle with Rangers or Celtic, the "old firm" of Scottish football, capturing the trophy. The light blues won honors in 1930, 1932, 1934-35, the Celts in 1931, 1933 and last year.

In the wake of the finalists' invasion will come thousands of supporters flaunting colors of their favorites. Nearly all modes of transportation will be used by Scotsmen pouring into Glasgow from all parts of the country to see the windup of a great footballing series.

This game will mark the second time since formation of the second division in 1932 that a team representing the junior league has reached final-round status, honors in both instances falling to East Fife. The Methill district squad met Celtic in 1927 and lost 3 to 1. Kilmarnock has won the trophy twice, in 1920 and 1929. The upset-a-round tradition in this sudden-death tournament was maintained in all but the second round this year. Dundee United, second-league aspirant, started the series with a bang-up 3 to 1 victory over Hearts, well-supported contenders for the cup.

Kilmarnock went to Celtic's lair in the third stanza and topped the Glasgow club and winner of the trophy last year by a 2 to 1 score. Rangers were then unanimously called to clinch their sixth victory in eight years. But critics didn't figure on Kilmarnock, who again upset pre-game "dope" with a 4 to 3 semi-final victory over the Light Blues. St. Bernard's, second-circuit entrant, tossed Motherwell for a 3 to 1 loss in the third round and East Fife duplicated its 1927 feat of ousting Aberdeen, cup runner-up last year, at the second attempt.

While observers acclaim Kilmarnock as the wonder team of the competition, they are not backward in praising the club's manager, Jimmy McGrory. The great center-forward, top scorer of all time who led Celtic to pilot the Killies on Christmas Day, has moulded the team into a smooth-working aggregation. If his team wins the cup it will be a crowning tribute to one of the game's greatest players, idolized by Glasgow crowds for more than a decade.

On the short end of the betting odds, East Fife has eyes on the double—the cup and promotion to the major league. Chances in either are not particularly promising but the team has crossed critics before during the season.

In bowling a 300 game, at what period along the line is the bowler most likely to experience that "choke-up"? The popular idea among those of us who seldom get three in a row, is that it must be on the fateful 12th, since it is the one that determines whether a man is to rank in the select 300 class.

When the American Bowling Class high score competition met on March 24 to check over and pass on affidavits claiming high score medals and honorable rating, it was revealed that from January 1, 1937, to December 31, 257 games of 298 and above came in for official approval. Of that total, 142 were 300's, 70 were for 299, and 45 drew 297. This would indicate that if you get the 11 strikes, your chances are about 50-50 that you will hang together for the 12th. Of course, there are possibly several 297, 296 and 295 games which are not reported for various reasons. Most of us might hesitate to report a game for honorable mention, when with 11 in a row, we lost control and left up 5 pins on the 12th for 295 instead of the 300 we were striving for.

## Smoke Eaters Ask Change in Referees For Hockey Game Tonight

CALGARY (CP) — It's a battle in the Allan Cup finals now with Cornwall Flyers confident after a victory and Trail Smoke Eaters determined to finish the best of five series tonight.

Elged out, 2 to 1, in the third game of the best of five series Monday, the British Columbia champions asked for new referees last night, but it was unlikely other officials could be obtained in time for the fourth game.

Coach Elmer Piper of Trail complained about officials, but emphasized there was no special decision he wished to protest.

"I don't think the refereeing is up to Allan Cup standard," asserted Piper, whose machine from the Rocky Mountains battled for a 6 to 4 victory in the first game and then triumphed, 8 to 2, in the second.

Coach Piper sent a wire last night to D. P. McDonald, president of the Alberta Hockey Association and official believed to have specific instructions regarding the series. McDonald arrived in Calgary this morning after attending the Canadian Amateur Hockey Association annual meeting.

Both squads will be at full strength tonight.

Dick Proulx, flyer forward in hospital since early Tuesday, will play with a swollen ankle, injured when Johnny McReedy of Trail broke his stick on the Cornwall player's leg in the last minute of the third game. X-rays showed no broken bones around the ankle.

Despite the protest, it was expected A. W. "Army" Armstrong of Oshawa, Ont., and Pete Sande of Calgary would handle tonight's game.

## Wins Marathon A Second Time

### Leslie Pawson, 1933 Winner of Boston Grind, Repeats Victory

BOSTON—Leslie Pawson, Pawtucket, R. I., city employee, yesterday sprinted across the finish line of the Boston Athletic Association's 26 miles, 385-yard marathon to repeat his victory of 1933.

Pawson's time, 2:35.34.45, almost equalled the 2:31.01.35 he turned in five years ago to set the course record.

Battling neck-and-neck with little Johnny Kelley of Arlington, Mass., through much of the long grind, Pawson pulled ahead over the man-killing Newton Hills and outdistanced the straggling pack over the last five miles of the terrific pull.

Pat Dengis of Baltimore, running for the Millrose A.A. of New York, caught Kelley in his last stretch and finished second in 2:36.40.25.

**LACROSSE PRACTICE**  
A workout of the Syracuse Indians lacrosse team will be held at Central Park Friday at 6. All players are asked to attend.

**SOFTBALL PRACTICE**  
A workout of Harris' Cyclists softball team will be held at the Central School grounds at 6 to 8 p.m. All players are requested to attend.

**PORT ALBERT** — J. McNeill, B.C. Forest Warden here, made a hole-in-one on the 180-yard second hole at the West Coast Golf Club Sunday. This is the first time that this hole has been made in a single shot.

## Westerns to Meet Ottawa For Title

### Latter Beat Windsor 26-24 For Eastern Cage Honors; First Game Saturday

Ottawa Glebe Grads will meet Vancouver Westerns at Ottawa Saturday in the first game of a best-of-five series for the Canadian senior basketball championship.

Grads won the right to meet Westerns last night by nosing out Windsor Moose Lodge, 26 to 24, in the deciding game of a best-of-three series for the eastern Canadian title, and Doug Robertson, vice-president of the Canadian Amateur Basketball Association,

# Victoria Daily Times

## VANCOUVER TO SEND STARS

Leading Mainland Swimmers and Divers Coming For Gala Here Saturday

When the British Columbia championship swim gala is held at the Crystal Garden on Saturday night the cream of Vancouver's swimmers and divers will be in attendance. This was learned today when the mainland entry list was announced.

Heading the out-of-town delegation will be little Lynda Adams, who was the victim of a doubtful decision in the women's diving at the recent British Empire Games.

Of the powerful V.A.S.C. team, five were members of Canada's team to the Empire Games. Phyllis Dewar, former freestyle, grand-slam winner in the London Games, goes after the 200-yard freestyle event and 50-yard sprint titles, and will be a member of the 400-yard relay team.

The women's relay team is exceptionally strong and may set a record. Both Phyllis Dewar and Noel Oxenbury of the Canadian team are members, along with Mary O'Hara, western Canada women's Wrigley cup winner, and Norma Scott.

Noel Oxenbury figures on making a sweep in the 200-yard freestyle, 200-yard backstroke and 50-yard freestyle. While Phyllis Dewar is expected to cop the 200. Noel is favored in the sprint and backstroke.

### OTHER ENTRIES

Mary O'Hara is another starry entry in the 200 and 50-yard freestyle events, while Joan Langdon is an overwhelming favorite to win the 200-yard breaststroke. She is also almost certain of wins in the 100-yard backstroke and 100-yard freestyle junior races.

Bobby Hooper, nip-and-tuck contender for premier honors with Toronto's Bob Pirie, should have no trouble winning the 400 and 200-yard freestyle heats, although Terry McCaulay is rated a chance in the shorter event. Hooper is also entered in the 150-yard backstroke and relay.

Other senior aces are Jacqueline Thompson, Vic Curran and Frank Sully. A fine team of juveniles includes David Langdon, Margaret Tait, Betty Bag-galey, Betty Plantee, Alec Matheson, Audrey Aetzel, Randall Scott, Wally Whiteside, Donald Douglas and Marion Douglas.

## A. T. Goward Is Golf Club Head

For the third successive year A. T. Goward was elected president of the Victoria Golf Club at the annual meeting held last night in the clubhouse.

Alex Watson was named captain with the following on the executive: J. H. D. Benson, W. P. Bowden, A. H. Ford, Alex. Gillespie, A. S. G. Musgrave, R. Peachey, Dr. R. Scott-Moncrieff, G. M. Terry and E. D. Todd. R. C. Field was named auditor.

Annual reports were read and adopted, and a vote of thanks extended to the retiring officers and members of the staff.

### NEW YORK

Bobby Pancho, 145, Los Angeles, outpointed Willie Fool, 146½, Brooklyn, N.Y. (10).

LOS ANGELES — Gunnar Barlund, 201, Finland, outpointed Chuck Crowell, 216, Los Angeles (10).

## Another Clean Sweep

Saturday afternoon Coach Al Ulbrickson's University of Washington oarsmen scored another clean sweep when his freshmen, junior varsity and varsity crews rowed University of California into defeat on the waters of Lake Washington. In the above picture Ulbrickson and Johnny Rosenkranz, who was the winning coxswain in the varsity boat Saturday, proudly display the huge silver trophy emblematic of varsity supremacy in the annual Poughkeepsie regatta. The purple and gold will attempt to sweep the Hudson for the third consecutive year on June 27.

## St. Boniface Are Junior Champions

### Wallop Oshawa 7 to 1 in Deciding Game For Canadian Hockey Honors

TORONTO—St. Boniface Seals called it quits for the season today after reaching the goal aspired by all Canadian junior hockey teams—the Memorial Cup—before the largest crowd ever to witness a hockey game in the Dominion.

Seals reached the peak of their form here last night before 15,617 fans at Maple Leaf Gardens to trounce Oshawa Generals 7 to 1 in the fifth game of their best-of-five series for the Dominion title. Victory meant that the trophy, won last year by Winnipeg Monarchs, will rest in Manitoba for another year.

Seldom had the stage been set for such a dramatic final contest. For during the day, prior to the game, it was revealed an offer had been made by anonymous letter to Wally Stanowski and Billy Reay, St. Boniface stars, to "throw" the game. They answered the letter by playing stand-out games.

Victors 3 to 2 in the first game and 4 to 2 in the third contest, Generals were overwhelmed in the first period by a St. Boniface onslaught that brought three goals. From then on it was almost a matter of coasting home for the Seals, who won the second game 4 to 0 and the fourth tilt 6 to 4.

**STAR IS CHECKED**  
Sparkplug throughout the first four games for Generals, blond Billy Taylor was held in check almost completely during the final contest. As much as anything that accounted for the decisive way in which Seals outplayed their opponents. The best Taylor could do was supply a pass to Bill Daniels for the single Oshawa goal in the second period.

The meantime, Seals rolled up two more goals in the second to the trio scored in the opening period and then came through with another two in the final period. Reay, Herb Burron and Hermie Gruhn accounted for two apiece while Bert Janke was responsible for the other.

Victory meant the 11th victory for western Canada teams since the trophy was offered for competition, to nine for the east. The shift this year in the resting place of the trophy will only entail taking the trophy across the Red River from Winnipeg to St. Boniface.

**SUMMARY**  
First period—1, St. Boniface, Reay (Janke) 2:13; 2, St. Boniface, Reay (Stanowski) 13:02; 3, St. Boniface, Burron (Stanowski) 13:17. Penalties: Gordon, Brunell, Daniels, Janke.  
Second period—4, Oshawa, Daniels (Taylor) 1:09; 5, St. Boniface, Gruhn (Gordon) 5:45; 6, St. Boniface, Janke 17:43. Penalties: Janke, Tonn, Burron, Dafee.  
Third period—7, St. Boniface, Burron 17:04; 8, St. Boniface, Gruhn (Burron) 17:45. Penalty: Reay.

## SEABISCUIT HEADS EAST

C. S. Howard's Racing Star Will Start in Dixie Stakes at Pimlico May 11

SAN FRANCISCO—Seabiscuit, carrying his turf campaign into the country of his greatest rival, War Admiral, will be shipped east tomorrow afternoon, it was decided yesterday. The two famed thoroughbreds will meet in their \$100,000 match race at Belmont Park May 30.

Traveling in a private car, accompanied by trainer Tom Smith and jockey Jack "Red" Pollard, Seabiscuit will detrain at Pimlico, Maryland, for a warm-up race prior to his meeting with War Admiral. The Pimlico run will be the Dixie Stakes, May 11.

Pollard, regular jockey, will have the leg up for the first time since a spill deprived him of the chance to ride Seabiscuit in the last \$100,000 Santa Anita Handicap.

C. S. Howard, San Francisco sportsman who owns Seabiscuit, will leave May 1 to be on hand for his horse's eastern appearances.

## RICH BOWLING MELON SPLIT

### Pin-spillers Collect Shares in \$198,000 Pot as American Classic Closes

CHICAGO (AP) They cut up a \$198,000 melon today for the money players in the United States bowling classic.

Top prize winner when the 38th annual American bowling congress ended last night was Knute Anderson of Moline, Ill. Most of the big money went to midwesterners.

Anderson took \$300 in cash, a diamond medal, and the plaudits of the bowling world for topping 746 pins to win the individual championship. His margin of victory was 21 pins.

There were 24,784 keggers after the prize during the 48 days and nights of competition on 40 gleaming alleys. The number of alleys and contestants were new A.B.C. highs.

One record score was written into the books. It was the 3,234 count amassed by the Birk Bros. Brewing Company team of Chicago, a score that topped the nearest competitor by 137 pins and compared with the former record of 3,199 set in 1927 by the Milwaukee Tea Shops.

Don Johnson and Fannie Snyder of Indianapolis divided \$500 which went to the two-man event winners. They knocked down 1,337 pins four days before the tournament ended to take the event by a two-pin margin over their fellow townsmen, Fred Mounts and Harry Wheeler.

Finishing 1 down, Miss Nora Wilson won A class honors in the par competition held yesterday at the Victoria Golf Club, Miss Jean Campbell led B class, being 3 up.

## Kurtsinger Is Centre Of Racing Uprising

### Suspension of Jockey Seriously Affects Kentucky Derby and Match Race

NEW YORK — Suspension of Jockey Charley Kurtsinger now threatens to throw a man-sized monkey wrench into two of racing's biggest events this spring, but Kentucky, Charley, the cause of it all, remained optimistic today.

The Brookmeade Stable, "Big Heat" Charley's contract employer, suspended him Monday and Hugh Fontaine, Brookmeade trainer, said he thought it would last for 30 days. This would bar the "Flying Dutchman" from the Kentucky Derby in which he is scheduled to ride Hal Price Headley's Menow.

This does not agitate the gentlemen who work for the improvement of the breed half as much as the thought that Kurtsinger may not be able to ride War Admiral in the match race with Seabiscuit.

The race is for \$100,000 at Belmont Park, May 30. Charles S. Howard, Seabiscuit's owner, has stipulated that Jack (Red) Pollard, Seabiscuit's pilot, must be on hand and there is nothing to prevent Sam Riddle from picking up his Admiral and going home if Kurtsinger doesn't get a leg up.

Kurtsinger, however, said he felt he would not be "grounded" for long. "I think the whole affair will be straightened out in

## Pigskin Winner Of English Race

EPSOM, Eng. (CP) — Mrs. A. Chester Beatty's Pigskin, a chestnut horse by the great Papyrus, out of Swiney, today won the City and Suburban important spring handicap, by a head from W. Murray's Terror in an exciting finish.

H. R. Mosenthal's Lady of Shalott, 1½ lengths back, was third in the field of 18 which started the 1¼-mile race. Pigskin was started at 6 to 1, Terror at 20 to 1, and Lady of Shalott at 10 to 1. Cliff Richards rode the winner.

## KAYO MORGAN TRIMS CHAMP

Decisions Sixto Escobar, Bantamweight Ruler, in 10-round Scrap

DETROIT — Kayo Morgan, 31-year-old Detroit southpaw, hammered out a 10-round unanimous decision over Sixto Escobar of Puerto Rico, the bantamweight champion of the world, in a non-title fight last night. Morgan weighed 120 pounds, two pounds over the bantamweight limit, while Escobar scaled 124.

It was Escobar's first bout since he regained the bantamweight title from Harry Jeffra of Baltimore at San Juan, Puerto Rico, in February.

A few moments after Escobar and Morgan entered the dressing room following the fight, they got into an impromptu bout, during which the Puerto Rican cracked the Detroitier in the jaw.

Friends stepped between the pair quickly, preventing further fist swinging, and afterwards Escobar charged Morgan "made insulting remarks" to him during their battle in the ring.

During all the hot words, Lou Brix, manager of the champion, said "Morgan will never fight Escobar again. That guy belongs in a circus."

## The Standings

### COAST LEAGUE

Team	Won	Lost	Pct.
Portland	11	7	.611
Los Angeles	10	8	.556
Hollywood	10	8	.556
Sacramento	9	9	.500
San Francisco	8	9	.471
Seattle	8	10	.444
San Diego	4	13	.233

### WRESTLING

SAN FRANCISCO — Bronko Nagurski, 235, Minnesota, defeated Vincent Lopez, 216, Mexico, straight falls.

NEW HAVEN, Conn. — Gino Garibaldi, 212, St. Louis, defeated George Koverly, 215, Hollywood, Calif., one fall. (Koverly injured left leg.)

INDIANAPOLIS — Jim London, 205, St. Louis, threw Abe Coleman, 206, New York, straight falls.

Finishing 1 down, Miss Nora Wilson won A class honors in the par competition held yesterday at the Victoria Golf Club, Miss Jean Campbell led B class, being 3 up.

Kurtsinger hinted at grudges and kindred skulduggery. He said he did not believe his offence, running off to Keeneland to ride Menow Saturday when Brookmeade wanted him at Jamaica, worthy of such fuss.

## The Cobra and the Mongoose

The cobra does not have many friends. It is one of the world's most deadly snakes, and it causes great loss of life in India, also some loss in southern Africa.

Perhaps we may call some snake charmers "friends" of the cobra. At least they tame this snake, and make money by showing their powers over it.

As far as other people go, there is a general hatred of the cobra. This animal--which has the power of spreading its neck into a kind of hood--is feared, and that is why it is hated. It does not rush to attack people, but if someone steps on it, or too near it, there is a sudden blow, and its fangs are fastened in human flesh. Unless quick action is taken the person dies in a short time.

The black cobra sometimes grows to a length of six feet or more. It is only one of several kinds found in India. It is estimated that from 15,000 to 20,000 persons die in India each year from bites of these serpents.

Rearing its head, a hungry cobra goes forth to get a meal. It looks for frogs and small furry animals. It can swim well, and can climb trees. In the trees it often robs birds' nests of eggs or baby birds.

As it crawls along the ground, the cobra sometimes comes upon a little animal known as a mongoose. Since the mongoose is only about 15 inches long, not counting the tail, we might expect the snake to be glad to see it--but that is far from the case! The mongoose is an enemy, and a fierce enemy. It isn't afraid of the cobra, and goes right after it!

With head raised high, and its neck spread wide, the cobra hisses with all its might. Up comes the little champion Nature has made to fight cobras.

With power and speed the snake strikes, but the mongoose is no longer where it was! It knows how to dodge the deadly blow. Time and again it may dodge blows, but sooner or later it is likely to sink its sharp teeth in the neck or head of the cobra.

Once in a while, the cobra does strike home and kill the mongoose, but far more often, it is the other way around. The mongoose (also spelled "mungoose") is an expert fighter.

Because it kills mice, rats and deadly snakes, the mongoose has been imported by people in certain places where it seemed to be needed. Years ago, some of the animals were obtained by owners of sugar plantations on the island of Jamaica. The special purpose was to rid the fields of rats.

The mongoose did the work well. They killed thousands and thousands of rats. Then came a time when they couldn't find enough rats or other wild game to feed on. Being hungry, they turned to the poultry roosts, and killed a great many chickens and other fowls.

## Dorothy Dix's Letter Box

DEAR DOROTHY DIX--I am a man of 25. Have supported my mother for 11 years. Now I have met the girl of my dreams--a fine, splendid woman, and want to marry her, but my mother won't hear of it. Says she will never give me up or let me marry anybody; that she will die if I leave her, and that she will never live in the home with my wife. I wouldn't ask her to do that because I know how miserable she would make my wife, because she is so jealous that she has had fits every time I went to see a girl. I don't feel that my mother should keep me from marrying and establishing a home with the girl I love. What do you think? And what am I to do about it?

BILL.

Answer--Don't discuss the matter with your mother any more. Just take your girl and step around to the parson and get married. As soon as it is over and a fixed fact that she can't help, your mother will have a few hysterics and then simmer down and be reasonable.

Don't worry about her dying or committing suicide. She won't do either. Millions of mothers keep their children under subjection by threatening to die for 30 or 40 years at a stretch if they are crossed. It is a coward's weapon, but they have found that it works, and old women are seldom particular about the means they use in dominating their families. But don't take your wife to live with your mother, or let her live with you. Get somebody to live with your mother, or put her in a nice boarding house and, although she will protest at first that you have broken her heart and been mean and ungrateful to her, you will be surprised at how chirpy and happy she will be. And when there is a grandchild she will think she engineered the match.

It is certainly the height of selfishness that the woman who married herself and had children who have brought her so much comfort that she does not wish to give them up, should be willing to deny these children the happiness that she has had.

DEAR MISS DIX--What do you think of an elderly widow and widower getting married? They are both lonely and are thinking of merging their interests and setting up a home for both, but they are wondering what their children and the public will say. What do you say?

Answer--I say it is a fine idea and for them not to bother about what the public or their children will say.

DOROTHY DIX.

## HOROSCOPE

"The stars incline, but do not compel."

Thursday, April 21, 1938.

Benevolent aspects rule today, according to astrology. There is, however, a threatening sign early in the morning when labor comes under ill omens.

Good feeling should encourage business today, although it is not a lucky date for launching new projects. Exports should be heavy and trade generally satisfactory.

Mars' in a threatening aspect which will cause anxiety in the United States as to the results of foreign conflict.

Women are under the best possible influences which encourage them in all vocations that minister to the common good. Nurses and social service workers may be much in demand.

This is a happy wedding day which promises long partnership, growing prosperity and lasting love.

Actors and actresses are subject to a sway that presages much activity through the summer months. Motion pictures will be patronized even more than in the past and little theatres will multiply through the summer.

Scandals in high places are foreseen for Germany where there may be subversive plots against Adolf Hitler who should safeguard his health as well as his life.

Persons whose birthdate it is have the augury of a year of hard work which may entail many short journeys. For the young successful courtships are forecast. Children born on this day probably will be of keen mind and kindly nature. Subjects of this sign may have a sense of humor and a ready wit.

Princess Elizabeth, daughter of King George VI, was born on this day 1926. Others who have celebrated it as a birthday include Charlotte Bronte, English author, 1816; John Muir, naturalist, 1836.

## PAWN TICKET WAS IMPROPER

W. J. Bellew and K. A. McLeod Fined \$50 in City Police Court Today

William J. Bellew and Kenneth A. McLeod, partners in the Pacific Jewelry and Loan Company, were fined \$50 by Magistrate Henry Hall in the City Police Court this morning on a charge involving an infraction of the Pawnbrokers' Act.

The charge arose from their failure to provide Constable J. W. Mason with a pawn ticket in the form required by the act when he pawned a diamond solitaire ring with the firm this month.

Constable Mason testified he had taken the ring to the firm's offices on Broad Street and asked for a loan. McLeod had said he would allow a \$5 loan on the ring. Constable Mason said he received \$4.50, McLeod informing him that the 50 cents was the cost of the transaction for 30 days. He also received a pawn ticket made out for \$5.

H. A. Beckwith, defence counsel, called no defence evidence, but argued that the charge was improperly laid and that the defendants had provided a ticket under Section 11 of the act, under which the charge was laid.

If the charge was intended to claim the proper form of pawn ticket was not used, Mr. Beckwith contended, it should have been laid under Section 9, which dealt specifically with the form of the ticket to be used.

C. L. Harrison, prosecutor, said the B.C. act covering pawnbrokers set out a proper form for pawn tickets, which stipulated the charges to be made. The permissible charges under the act were five cents for the ticket and not more than two cents for each \$1 of the loan for a month. None of these conditions were stated on the ticket which Constable Mason received.

In imposing the fine Magistrate Hall said pawn tickets were for the protection of the public, and it was quite obvious that the ticket used was not in the form required. In reply to Mr. Beckwith's argument he did not feel there was any question but that the schedule prescribing the form of the ticket should be read into Section 11 of the act.

A second charge, which alleges another infraction of the act was remanded for a week.

## WOULD ALTER SHOP HOURS

Barbers Seek Amendment of By-law For Later Morning Opening

Changes in the morning opening hours and revision of Saturday-night closing time are sought by barbers and hairdressers in the city in a petition filed today at the City Hall.

The petition will be presented to the City Council tomorrow afternoon, it was understood.

The barbers seek revision of the existing by-law to allow them to open at 8:30 in the morning instead of at 9 and to close at 6 instead of 8 on Saturday nights.

In the city there are 40 licensed occupiers who are qualified to seek amendment of the law by petition. Of them 36 have signed. Only 75 per cent of the licensed occupiers are required on a petition to have the by-law changed. As a result the revision appeared virtually certain.

Anyone receiving the coins was advised to communicate with headquarters immediately in order that police may be given an opportunity to trace them.

## TOWN TOPICS

Tonight at the Empire Ministry headquarters, 1406 Douglas Street, H. L. Sterling will deliver the third in a series of lectures, "The Empire Laws—Their Future."

Thieves last night ransacked premises of the Union and Canadian Packing Companies at Ogden Point, according to a city police report. No losses were reported. Doors to the offices were opened with the use of a jack.

Volunteers are being sought by the Imperial Veterans' Association to act as taggers for the association's tag day on Saturday. Those willing to help are asked to get in touch with officials at 214 Pemberton Building.

Organizations using Bullen Park for sports purposes will be held responsible for damage to the newly erected fence, the Esquimalt Council ruled last night after hearing a report that the fence had been broken.

Two motorists were fined \$2.50 each on parking charges in the City Police Court this morning. Another motorist was fined \$15 when he pleaded guilty to a charge of permitting another person to use his driver's license. A \$5 fine was assessed on a driver for failing to have a license.

Three or four appeals are expected to go before the city zoning board of appeal at its meeting in the City Hall tomorrow at 2. An hour after that group meets the lands committee will hold its regular session, while the council meeting is scheduled to begin at 3:30.

The regular luncheon meeting of the Victoria Real Estate Board will be held tomorrow at 12:30 in Spenser's dining-room, instead of on Friday. F. G. Aldous, British Columbia land surveyor, will address the meeting on "Professional Contact—Real Estate Brokers and Surveyors."

Mrs. Nellie McClung will address the members of the Canadian Authors' Association in the Princess Louise Room of the Empress Hotel, tomorrow evening at 8, on her recent trip to Mexico. At the conclusion of her lecture, Mrs. McClung will answer any questions relating to the Canadian Broadcasting Corporation.

The City Council at its meeting tomorrow afternoon will be asked by the Oak Bay Council to terminate its temporary fire protection agreement with Oak Bay by 8, Friday morning. The amount to be paid by Oak Bay to Victoria for protection since March 27 has not been decided upon. Oak Bay has been paying the city \$1,500 a month.

On the instruction of Mayor Andrew McEwen, the city engineer with the city electrician, will make a map of electric light poles in Victoria and indicate data concerning cross-arms and wiring. The move has been suggested by R. W. Beck, utilities expert, as a preliminary measure to more detailed investigations by him in the future.

The annual house-to-house canvass to collect dog licenses not yet paid this year started in the city last week, and will continue until all districts have been covered. It was learned at the City Hall today. To date approximately 1,450 licenses have been issued. All last year 2,000 tags were sold. Licenses are \$5 for females and \$2 for males and spayed females.

At the meeting of the Twentieth Century Young Liberal Association, W. T. Straith, M.P.P., spoke on his impressions of Japan and China gathered on his recent trip to that area. After a lengthy discussion the matter of the Victoria Youth Council was left for the Public Relations Committee under the chairmanship of Keith McFarlane to report on at the next meeting.

On Tuesday evening in the Y.M.C.A. hall, Mrs. E. W. Abraham addressed the Victoria and District British-Israel Association on "The Three Great Essentials of British-Israel Truth." These are: Faith, hope, love. Faith, "the substance of things hoped for, the evidence of things not seen." Hope in Life Eternal: "God is the House of His people." Love, the basic law of British-Israel truth; the fulfilling of the law, said the speaker.

Dr. Heng Chih Tao will address a public meeting at the Chamber of Commerce auditorium tonight at 8 on the "European Crisis and Sino-Japanese Conflict." Dr. Tao is dean of the Southeastern University of China and director of the Popular Education Movement there. While on a lecture tour across Canada last January, he was recalled by Dr. Wellington Koo at Geneva and assigned as delegate to the Brussels Conference and the International Peace Congress at London. Professor E. S. Farr of Victoria College will preside at the meeting.

## Museum to Mark 50 Years' Growth

Anniversary Dinner Saturday to Celebrate Half-Century

Fifty years ago, in a small room adjoining the Provincial Education Department in the old Birdcages, the late John Fanning got together a few specimens of ducks, herons and other small birds, a stuffed wildcat and porcupine, and invited the public to visit British Columbia's first provincial museum. In the first year 520 people went to see the specimens.

On Saturday this event will be celebrated at a special dinner tendered by the Provincial Museum of Natural History, which now boasts 100,000 specimens of the flora and fauna of the province, and was visited by 60,000 people last year.

Biologists and anthropologists from northwest points have been invited here for the function which will be preceded Saturday morning by a meeting of the Pacific Northwest Bird and Mammal Society.

Growth of the museum will be traced at this meeting by Francis Kermode, the director, who has been associated with the institution for 48 years, almost since its inception. He has been the director since 1904.

Other papers will be given by Dr. John Guberlet of the University of Washington on "Parasites and Diseases of Wild Life"; Dr. Victor Scheffer of Seattle on "The Aleutian Islands Wild Life Reservation"; Dr. I. M. Cowan, assistant director of the B. C. Museum and Kenneth Racey of Vancouver.

On Saturday afternoon the visitors will inspect the local museum and then take a trip into the country to hike the skylarks.

The anniversary function at night has been arranged by Mr. Kermode. Out of town guests at this affair will include Dr. W. A. Clemens of the biological station at Nanaimo, Dr. M. Y. Williams of U.B.C., W. M. Kelly of the Burrard Natural History Society, Dr. R. C. Miller of the University of Washington, Dr. Erna Gunther of the U. of W. museum, and Dr. J. Kempkes, professor of biology at Everett High School.

The provincial museum, set up actually in 1887 in response to a public petition, has suffered "growing pains" almost from the start and still is not rid of the complaint. After its first few months next to the education department, it was moved to the old Supreme Court building when that office was shifted to Bastion Street. It has come to occupy the entire east wing of the present Legislative Buildings and is crowded there. It has 3,000 mammal specimens, 8,000 birds, 11,000 botanical specimens, 5,000 anthropological, 30,000 insects, and other thousands of paleontology, fish and crustacea generally.

## DR. H. B. KING GIVEN AWARD

The George A. Ferguson memorial award, highest honor of the British Columbia Teachers' Federation, was conferred today on Dr. H. B. King, M.A., Ph.D., technical adviser to the Department of Education and director of curriculum revision.

The award was made at the luncheon of the federation's 19th annual convention in the Empress Hotel. Dr. William G. Black, president of the provincial Parent-Teacher Federation and a member of the memorial trustees' committee, announced the award to Dr. King for his work as "a proponent, exponent and champion of every forward-looking educational reform in British Columbia these many years back."

Dr. King was not in the room when the award was announced. The meeting stood in silent tribute to the memory of the late George A. Ferguson, whom Dr. Black described as "the symbol of all that is best in the teachers' federation."

James R. Mitchell, Vancouver, who last year was president of the Canadian Teachers' Federation, received from Harry Charlesworth, secretary of the provincial federation, the gavel used by himself at the Dominion-wide group's Toronto convention last year. The shaft carried an inscribed silver plate.

**BISHOP ROWE AT FAIRBANKS**

FAIRBANKS, Alaska (AP)—Bishop Peter Trimble Rowe, 81-year-old Episcopal Bishop of Alaska, returned here today in fine health and spirits after an extensive airplane tour north of the Arctic Circle. Bad weather delayed his plane at Fort Yukon.

## OBITUARIES

CECIL J. G. WRAY

Private funeral services for Cecil John Gore Wray were held yesterday afternoon in Sands Mortuary Chapel. Canon F. A. P. Chadwick officiated. A number of floral offerings surrounded the casket. The following acted as pallbearers: J. Willis, B. Long, T. Martin and W. Jones. Interment was in the family plot at Ross Bay Cemetery.

HENRY BIRD

Many sympathetic friends attended the funeral services held for Henry Bird yesterday afternoon in Haywards' B.C. Funeral Chapel, Rev. G. R. V. Bolster officiating, after which cremation took place in Royal Oak Crematorium.

ALICE HEWLETT

At the Royal Jubilee Hospital yesterday, the death occurred of Mrs. Alice Hewlett, aged 72, of 3150 Millgrove Street. Mrs. Hewlett was born in England and was the widow of the late Alfred Hewlett and had been a resident of this city for the last 30 years. She is survived by a niece in Winnipeg, a niece in New Jersey, and two sisters in England. The funeral will take place on Friday afternoon from McCall Bros. Funeral Home at 3:30. Rev. O. L. Jull will conduct the service, and interment will be in the Royal Oak Burial Park.

JAMES F. HARRIS

James F. Harris passed away last night at the family residence, 970 Woodlands Avenue, Saanich, aged 66 years. Mr. Harris was born in Birmingham, England, and had been a resident of Victoria and district for 27 years, and is mourned by his widow and two daughters, Mrs. William Herbert, at the family residence, and Mrs. Penderlay, of 972 Woodlands Avenue, and three grandchildren. The funeral will take place on Friday afternoon from McCall Bros. Funeral Home at 2. Interment will be in Colwood Burial Park.

GRACE BOWDEN

Funeral services for Mrs. Grace Bowden took place yesterday afternoon in Sands Mortuary. Rev. James Hood officiated. Mrs. S. M. Morton rendered the solo "God Be With You Till We Meet Again," and the congregational hymns sung were "Nearer, My God, to Thee" and "Abide With Me." The beautiful floral offerings which covered and surrounded the casket betokened the high esteem in which Mrs. Bowden was held by her relatives and many friends. The pallbearers were: A. W. Goodwin, A. J. Potts, H. Barker and C. Badger. The remains were laid at rest in the Colwood Burial Park.

BAPTISTE PAUL

Funeral services for Baptiste Paul, infant son of Mr. and Mrs. B. Paul of Brentwood, were conducted this morning at Brentwood. A large number of friends attended the service and the following acted as pallbearers: W. Paul, R. Bartlett, C. Dick and M. Cooper. The remains were laid at rest in the West Saanich Cemetery. Sands Mortuary had charge of arrangements.

Councillor G. R. Guillemaud gave notice at last night's meeting of the Esquimalt Council he will introduce a motion to amend the municipal trade license by-law to provide that all concerns with their place of business outside Esquimalt but making deliveries within the municipality be required to pay an annual license fee of \$10.

The Esquimalt Council decided last night to ask a Victoria building company to send representatives for a personal meeting with the council. The action was taken after an offer to purchase two lots at a price of \$50 each and to pay \$5 each for options on eight other lots for a period of six months had been turned down. The council at a previous meeting refused another deferred payment offer by the same company.

## Will Consider Oak Bay Letter

Belief the City and Oak Bay would have to secure a definite ruling to determine which act governed the arrangements of the two municipalities in regard to water supply and rates before taking any further action, was expressed by Mayor Andrew McGavin today as his water board prepared to meet during the afternoon.

The session had been called, he said, to consider a letter from Oak Bay, stating in part: "Our contention is that if we cannot agree on a price, it should be settled by the Comptroller of Water Rights of the Province, pursuant to the schedule to the Oak Bay Act, 1910, Amendment Act, 1911."

"We will have to decide which of the two acts, that of 1910 or that of 1925, governs the issue," the mayor remarked. Indications were no definite action on the letter itself would be taken.

## BOULES FOR SALE

(Continued)

## YOUR SUMMER CAMPSITE

OLEN LAKE—Near town than Langford Lake. Why not drive out over the Easter holidays. We offer a dandy 70-foot lot by some 300 feet deep. The back is not steep, some pretty arbutus trees, plenty of fir at back for wood. Faces south. Situated on Highway side of lake, 80 ft. in station Road. The lot is stated and numbered "A", next to summer place called "The Cedars". Our sign on it. You can't miss it. The property. Owner will sell on terms or trade for Oak Bay lot or part payment on good car. Priced reasonably. We say this because lake-front lots are scarce.

THE B.C. LAND AND INVESTMENT AGENCY LTD.  
922 Government St. O4115

An Offer of \$1,500 Will Be Considered

SWINERTON & CO. LTD.

630 BROUGHTON ST.

## Newspaper Advertising

Directs the Buyer to the "Point of Sale"

Unless a person knows a thing exists, he will not conscientiously patronize it.

GOOD advertising, therefore, informs... persuades... convinces but, in the final analysis, all publicity is of no avail unless the buyer and seller are brought together to complete the transaction. Then, and only then, does the cumulative benefit of advertising accrue.

Newspaper advertising, not only promotes the desire to buy but furthers the actual sale by telling the consumer where the product is available. It points to the retail outlet and, as the daily circulation blankets that outlet's trading area, the designation is most complete and effective, and greater benefit accrues to the product, the buyer, and the dealer.

This advertisement was prepared for the Canadian Daily Newspapers Association by Ardiel Advertising Agency Limited

## Snow White and the Seven Dwarfs

A scene from Walt Disney's colored feature which opened at the Atlas Theatre today.

out of the Portland ball park for his second homer.

Despite the loss yesterday the Ducks were still tied for first place with Los Angeles.

Los Angeles dropped a 4 to 1 game to San Diego Padres as hefty Jim Chaplin of the Padres limited them to five hits.

Sacramento went into a tie for second place with the Hollywood Stars who were given a 7 to 3 shellacking by the San Francisco Seals last night. The game marked the 1938 debut of Dominic DiMaggio, youngest of the baseball playing DiMaggios. He failed to get a hit in five times at bat, but made four putouts in centre field.

Seattle baseball fans will get their first glimpse of the 1938 Seattle club today when it plays Oakland.

Results follow:

Do Amazing Feats at Circus

author and naturalist, who delights visitors to Banff Springs Hotel with lectures on the wonders of the Canadian Rockies, has been made a Fellow of the Zoological Society. The honor was conferred on him after he delivered an illustrated lecture before the society at Regent Park on his last visit to England. "My job is a perfect one for a canny Scot," he often says. "I can sell scenery to visitors and keep it too." Mr. McGowan is a frequent visitor to Victoria and has addressed the Women's Canadian Club several times.

Even the natives of the South Sea islands have the screen celebrity autograph fever.

Jon Hall, who appears opposite Dorothy Lamour in Samuel Goldwyn's "The Hurricane" at the Oak Bay Theatre, has received a consignment of coconuts from his native Tahiti, with the request that he autograph them and send them back.

Love is strong enough to beat one of America's most powerful rackets, hijacking, in "Tip-Off Girls," which is now at the Dominion Theatre. Lloyd Nolan, playing the role of a G-man, finds out that gang-busting is harder than he expects when the secretary of the racket-chief turns out to be the only girl in the world.

DETROIT—Kayo Morgan, 120, Detroit, outpointed Sixto Escobar, 124, of Puerto Rico, bantamweight champion, (10) nontitle.

Where to Go Tonight

(An Advertised)

ATLAS—Walt Disney's "Snow White and the Seven Dwarfs."

CAPITOL—Deanna Durbin in "Mad About Music."

COLUMBIA—"Tundra," with Evelyn Brent.

OAK BAY—"The Hurricane," with Dorothy Lamour.

PLAZA—H. B. Warner in "Our Fighting Navy."

## DISNEY EPIC AT THE ATLAS

"Snow White and the Seven Dwarfs" Returns to Victoria Today

"Snow White and the Seven Dwarfs" is now at the Atlas Theatre. This is the first Walt Disney animated film produced in feature-length Technicolor, which has been declared by newspaper critics to be the season's biggest sensation. It is unique in more ways than one, combining as it does the pleasures and lure of fantasy with excellent drama and high-pressure comedy. The plot is derived from the best-known story in Grimm's Book of folk tales, and this factor alone will attract patrons. The young folks will be impatient to see their favorite princess, "Snow White," in all her loveliness on the screen, alive, as they have often seen her in imagination.

"In Old Chicago" Opens Tomorrow

The blaze, flames shooting 100 feet into the air and clouds of burning gas 100 feet above that, could be seen 25 miles away. Five city blocks were on fire at once, and the Los Angeles Fire Department, augmenting the studio's own modern apparatus, merely sat and watched from a safe distance while fifteen old fire engines, all of the 1870 vintage, or older, struggled vainly to subdue the raging chaos. And thus it was that the great closing sequences of "In Old Chicago" coming to the Capitol Theatre tomorrow, were filmed at the 20th Century-Fox studios.

## Governor Vetoes Special Session

**Martin Flies Home to Washington State Capital, Balking Vic Meyers**

OLYMPIA, Wash. (AP)—Assistant Secretary of State Charles B. Reed refused to accept for filing the proclamation of Lieutenant Governor Victor A. Meyers today, calling a special session of the Washington State Legislature on April 25.

Reed said Meyers had left the proclamation with him and returned to his hotel. Reed said he would ask the Attorney-General for an opinion as to the proclamation's legality, before accepting it.

As acting Governor, Meyers arrived at the Secretary of State's office at 8:01 a.m., but neither Secretary of State Beebe nor her assistant, Mr. Reed, was in.

**FLIES HOME**

At the same moment of the arrival of Meyers, there was a shout from Governor Clarence Martin's office that the chief executive, returning from Washington, D.C., had landed in Spokane.

Governor Martin arrived by plane in Spokane at 7:58 a.m. "I am astounded to think that an attempt has been made to call a special session," the Governor declared, "but I am not alarmed. There won't be any special session when we get through with them."

He said that "if there is any need for one I cannot see it. It seems to me it is one great big joke."

Meyers cited the need for further social security, housing and revenue-raising legislation in his special session call.

"It is very distasteful to me to usurp any of the Governor's powers," he said, "but I would not like to have it on my conscience that I had a chance to call a special session and failed to when there are so many in need."

## Two Boys Slain; Father Ends Life

AUBURN, Wash. (AP)—A father deranged by separation from his wife, killed his two sons, then took his own life by shooting.

The story was unfolded today after discovery last night of the bodies of the children, Herbert Barrett, 11, and his brother, William, seven.

They had been slain, Sheriff's Deputy O. K. Bodie said, by their father, Joseph O. Barrett, 38-year-old public project worker, whose body was found nine hours earlier.

## Rewards If Drivers Caught

TORONTO (CP)—A drive to curb the number of motor accidents in Ontario gained impetus today under the spur of rewards offered by provincial and civic authorities.

Rewards of \$1,000 in each case were offered by the government for the arrest and conviction of the driver whose automobile struck and killed Leonard Hosty in Toronto's west end April 9 and the person responsible for an accident in Paris last Saturday night when 68-year-old George Hambleton was injured.

## Letters to the Editor

**"HELPING LAME DOGS"**

To the Editor:—"War as a means of settling international disputes, is incompatible with the mind of Christ." So reads a resolution of the Lambeth Conference of the year of Our Lord 1930. Therefore, from a Christian standpoint, Japan's course of slaughter and rapine in China is due for punishment. We know that that punishment will come from the hand of one who has said, "I am the Avenger; I will repay"; and that it will surely come through human agencies, and those probably not altogether the arms of the injured nation.

Meanwhile in China we have to deal with a huddle of mud and blood six months old, and a similar mess just about to begin in Japan. Shall we go on sitting by our fireside saying, "What is that to us? Are we our brothers' keepers?" Is it not rather up to us, called by His name, practically to show what is "the mind of Christ," as we interpret that mind; perhaps to cut out a few "talkies" and other "circuses," save the odd nickel for the Oriental Help Funds, and give our helping hand moved by a heart of compassion to those helpless thousands across the water from us, the maimed, the sick, the dying.

At a recent session in Vancouver of the Anglican Synod of New Westminster, many delegates

insisted that the injunction, "love your enemies," be observed by every Christian. "Miss Hilda Hellaby, worker among the Orientals of Vancouver, made a strong plea for a more Christian attitude toward both Chinese and Japanese living in the city," (Vancouver Daily Province).

There are some who say that just because you are a Christian is no reason that you should love your brother men (let alone your enemies), unless they happen to be English or Canadian or American, and go to your church. And when the press dispatch announced "England will ask Canada and America for planes," the headline did not read "This will help Ethiopia or Spain or China," but "This may be of some help to Vancouver."

It is hard to see beyond the tips of our noses, but we can if we try.

F. W. L. MOORE, Lt.-Col. (R.L.)  
Maison de Campagne de la  
Pomme Rouge, 3249 Quadra St.

## CYCLES IN CHINA

To the Editor:—When we Chinese say that worldly affairs pass on and come back in cycles we refer to the cyclic prosperity and decadence of China, the phenomena which invariably have made us fatalists.

Indeed, the rise and decline of the fate line of China is most marked throughout her history of 15 major dynasties and 12 minor dynasties with the coming and going of 239 emperors and kings, some good, some bad, covering 4,606 years, from the coronation of the "Yellow Emperor" to the abdication of the "Child Emperor" in 1911.

This long path of existence, brimful of comedy and tragedy, sorrow and joy, hope and despair, has confirmed every Chinese that their country is dominated by the fatal periodicity of prosperity and stagnation.

China has been in her "evil days" for some 300 years, and according to our calculation on the fate chart of the Chinese race, the nation is due for the better days now. Despite their present calamity, the Chinese are confident that China is on the ascendency to a new era of prosperity and serenity.

We do not calculate the fate of Japan in this manner. Japan's meteoric rise as a modern world power is too spasmodic to be of lasting quality. Since the Meiji reform Japan has embraced western civilization only in terms of warships and big guns.

Chuen Chi Wan, who built the Great Wall of China, slaughtered scholars, burned classics, confident his dynasty would last 10,000 years, but his tomb was dug up and his corpse insulted in the third year of his successor by Shaw Han Yi. The latter, who was the Hercules of ancient China, having, in his own words, possessed strength to pull up mountains, and having overthrown a dynasty almost single-handed, sought to establish a new dynasty by ruthless force, but committed suicide on his first defeat. Then there was the mystical rise of the Mongols that conquered half the world, only to relapse again to herd sheep in their Gobi desert lands. More familiar to the western reader in the case of Napoleon who ended up in St. Helena. Perhaps Japan may be another one of these examples?

In view of the historical examples of militaristic pomp, recklessness and tyranny and their inevitable fate, little wonder we Chinese are so fond of the expression: Fly high, fall low.

LIM YOU YOUNG.

## Manslaughter Hearing Soon

MISSION CITY, B.C. (CP)—Stanley Vlasowski, driver of a school bus involved in an accident which killed Edith Powell, a child, last March 14, was arrested at the request of the British Columbia Attorney-General's Department.

Vlasowski was originally charged with manslaughter, but that charge was reduced to driving on the common danger and he was fined \$50. The Attorney-General's Department has a order that the "original charge should be heard."

## Bank Robbed In Toronto Today

TORONTO (CP)—Two armed men robbed an east-end branch of the Dominion Bank of Canada of \$2,000, holding up the manager and teller a few minutes before noon today.

## NET PROFIT

NEW YORK (AP)—General Electric Company reported today net profit for the first quarter of \$7,075,739 after all charges and taxes, equal to 25 cents a share of common stock. This compared with net profit in the corresponding 1937 quarter of \$11,626,408, or 40 cents a common share.

## Unusual Demand For Durum Wheat

WINNIPEG (CP)—Winnipeg wheat futures reflected a slow world trade today and closed 1/2 cent lower to 1/2 cent higher, May, \$1.25 1/2, July, \$1.15 1/2, and October, 90 1/2 to 90 3/4 cents.

Buffeted by a series of trade reports, futures moved nervously within a two-cent range but volume of transactions was limited. A feature of the trade was unusual demand for durum wheat, which resulted in cash durum spreads improving to two cents.

Liverpool closed unchanged to 1/2 cent lower. Buenos Aires reversed early gains into small losses at noon.

Red spring grades were irregular. No. 1 improved a cent to 15 cents premium over the May future while No. 2 declined two cents to four cents premium.

Speculative interest forced rye up one cent at top levels but full gains were not maintained. Other commodities moved narrowly.
